Brooklyn Rapid Transit Co.—(For map of this company's system see between pages 960 and 961).—Incorporated Jan. 18, 1896, under the provisions of the Business Corporations Law of the State of New York. The purposes for which the company was formed are set forth in the certificate of incorporation, as follows: "Second—the purposes for which it is to be formed are the construction, extension, repair, improvement, equipment of and furnishing the motive power for railroads and other works, and aiding any corporation or individual in such construction, extension, repair, improvement, equipment, and furnishing of motive power. Third—The said corporation shall be authorized to purchase, acquire, hold and dispose of the stocks, bonds, and other evidences of indebtedness of any corporation, domestic or foreign, and issue in exchange therefor its stock, bonds, and other obligations." The company was the legal successor to the Long Island Traction Co., a corporation formed under the laws of Virginia, whose assets were sold under foreclosure of its collateral trust notes in Dec., 1895, and passed by conveyance from Frederick P. Olcott, Chairman of the Reorganization Committee of Long Island Traction Co. to Brooklyn Rapid Transit Co. These consisted principally of (1) entire capital stock of Brooklyn Heights RR. Co. (except shares qualifying directors), par value, \$200,000, carrying with it lease of Brooklyn City RR. Co. for 999 years; (2) entire capital stock of Brooklyn, Queens County and Suburban RR. Co. (except shares qualifying directors), par value, \$2,000,000; (3) guaranty fund for performance of lease of Brooklyn City RR. Co. to Brooklyn Heights RR. Co., consisting of \$2,000,000 par value Brooklyn, Queens County and Suburban RR. 1st mtge. bonds, and \$1,627,000 par value Brooklyn City RR. Co. 1st mtge. bonds; (4) Equity in Construction Account of Brooklyn Heights RR. Co., against Brooklyn City RR. Co. For place of reorganization, see Manual for 1895, page 1400. The duration of the charter is 999 years.

The company is not a railroad corporation, but, as stated above, was organized to hold the stocks and bonds of railroad companies, and to aid in the construction and equipment of railroads. The various properties of the company are in the main operated under lease by the Brooklyn Heights RR. Co., all of whose stock is owned by the Brooklyn Rapid Transit Co. The capital stock of the B. R. T. Co., under the plan of reorganization was fixed at \$20,000,000. On Feb. 11, 1899, the stockholders authorized an increase from \$20,000,000 to \$45,000,000, the remaining \$25,000,000 being used at intervals during the succeeding year for the acquisitions of stocks of street railroad companies in the Borough of Brooklyn, and for cash, the cash thus realized being used in the acquisition and reconstruction of railroad properties.

The Buffalo Ry. debentures were issued to provide for betterments to the property; they are redeemable at 105 after April 1, 1902, in \$50,000 lots on any semi-annual interest due date. These debentures are secured by deposit with the trustee of \$2,000,000 stock of the Buffalo Crosstown Street Ry. Co. The 2d mtg. bonds of the Buffalo and Niagara Falls Electric Ry. are provided with a sinking fund of at least \$10,500 per annum, beginning Oct. 1, 1901, bonds to be purchased at not exceeding 105. The Lockport and Olcott Ry. 1st mtg. bonds cannot be called before maturity; they are guaranteed, principal and interest, by the International Traction Co. Metropolitan Securities Co.—This company was incorporated under the Business Corporation Laws of the State of New York, on February 14, 1902, with an authorized capital stock of \$30,000,000 divided into shares of \$100 each. The purpose of its formation was, primarily, to provide the money (approximately, \$23,000,000) required to pay the unfunded debt incurred in the purchase of stock of the Third Avenue RR. Co., and to defray the expense of extending the electrical system to upwards of 80 miles of lines of the Metropolitan Street Ry. system still operated with horse cars.

The company has acquired all of the outstanding capital stock and other securities of the Interurban Street Ry. Co., which has an authorized capital stock of \$20,000,000, and owns and controls franchises for the construction and operation of street railroads on an extensive mileage of streets in the Borough of the Bronx and adjacent territory. An agreement has been entered into between the Securities Co., and the Interurban Co., by the terms of which the Securities Co. is to pay into the treasury of the Interurban Co., at least \$23,000,000 in cash (as required for the purposes hereafter stated), receiving in return stock of the Interurban Co. at par and debentures bearing interest at a rate not exceeding 4 p. c. per annum. The agreement further provides that the Securities Co. shall acquire any further stock and securities that the Interurban Co. may hereafter issue.

On March 20, 1902, the stockholders of the Metropolitan Street Ry. Co., and of the Interurban Street Ry. Co. voted to lease the lines of the Metropolitan Street Ry. Co., to the Interurban Street Ry. Co. for 999 years, from 1902, the lessee agreeing to do the following things, among others: (1) assume the fixed charges of the Metropolitan Street Ry. Co., and unconditionally guarantee 7 p. c. per annum upon the entire amount of its capital stock, payable quarterly, and (2) pay \$23,000,000 into the treasury of the Metropolitan Street Ry. Co. in return for the securities liberated by the payment of the unfunded debt and other assets now almost entirely unproductive; said sum of money to be expended in liquidating the unfunded debt and in completing the electrical equipment of the Metropolitan system, and to be paid as required for those purposes. The stockholders of the Metropolitan Street Ry. Co. were offered the privilege of subscribing at par for an amount of the stock of the Metropolitan Securities Co. equal to 45 p. c. of the par value of the capital stock of the Metropolitan Street Ry. Co., that is to say, for \$23,400,000 of such stock out of the total capital of \$30,000,000.

It is also proposed that the Metropolitan Street Ry. Co. shall create a refunding mortgage to secure an authorized issue of \$65,000,000 of 4 p. c. 100-yr. refunding bonds, of which about \$54,000,000 are to be reserved to retire and refund the several issues (27 in all) of existing bonds secured by liens upon various parts of the Metropolitan system (excluding the Third Avenue lines) as they respectively mature, and also for refunding in advance of maturity such of the existing bonds as can be advantageously acquired either by purchase or by way of exchange for the new refunding bonds. By the terms of the agreement of lease, the Interurban Co., as lessee, must provide the interest upon the bonds to be issued under this refunding mortgage, as well as all other fixed charges, without impairment of the guaranteed annual payment of 7 p. c. upon the capital stock of the Metropolitan Street Ry. Co. The remainder of the refunding bonds not reserved for refunding purposes are to be issued against expenditures made, and to be made upon lines of subsidiary companies and for other corporate purposes, and may be issued under the agreement of lease, in lieu of other assets, in part reimbursement of the funds to be provided thereunder. The present operating management will be continued in charge of the Metropolitan system.

Directors.—William H. Baldwin, Jr., Edward J. Berwind, Paul D. Cravath, Thomas P. Fowler, James H. Hyde, Augustus D. Juilliard, Mortimer L. Schiff, New York, N. Y. Officers: T. P. Fowler, Pres.; Paul D. Cravath, Vice-Pres.; E. W. Sayre, Sec. & Treas., New York, N. Y. General Office, 32 Nassau St., New York, N. Y.

In Feb., 1902, the capital stock was increased to \$20,000,000 all of which when issued, as well as other securities of the company, will be acquired by the Metropolitan Securities Co. RAILROADS LEASED BY THE INTERURBAN STREET RY. CO. ON MARCH 20, 1902.

METROPOLITAN STREET RY.—Length of tracks owned and leased, June 30, 1901 (see detailed statement following), 196.96 miles. Gauge, 4 ft. 8½ in. Rail (steel), 47 to 113 lbs.

History.—Consolidation, Nov. 29, 1893, of the Houston, West Street and Pavonia Ferry RR., the Broadway Ry. and the South Ferry RR. Cos. (see Manual for 1894, page 1014). On May 18, 1894, the Metropolitan Crosstown Ry. and the Lexington Avenue and Pavonia Ferry RR. Cos. were consolidated with this company, as was also the Columbus and Ninth Ave. RR. Co. on Nov. 7, 1895 (see Manual for 1898, page 1050). The Metropolitan Traction Co., which owned the entire capital stock of this company, was dissolved in Oct., 1897, its capital stock of \$30,000,000 being exchanged at par for stock of this company, the stockholders also receiving 20 p. c. of the par value of their shares in 5 p. c. debenture certificates. On Oct. 15, 1898, these debentures were retired by an issue of an equal amount (\$6,000,000) of capital stock as stated elsewhere in this statement. Included in the operations of this company given in this statement are those of the following leased lines: Bleeker Street and Fulton Ferry RR., Broadway and Seventh Avenue RR., Central Park, North and East River RR., Eighth Avenue RR., Forty-second St. and Grand Street Ferry RR., New York and Harlem RR. (city division), Ninth Avenue RR., Second Avenue RR., Sixth Avenue RR., and Twenty-third Street Ry. (see appended statements for these several companies).

The property of the Third Avenue RR. Co. was leased to this company on April 13, 1900, for 999 years. Under the terms of their lease, the lessee guarantees payment of principal and interest on \$50,000,000 of 4 p. c. 1st consol. mtge. bonds of the lessor company, of which \$15,000,000 are held in the treasury to take up underlying securities of the Third Avenue RR. and subsidiary lines, and in addition thereto dividends as follows: For the first four years from date of lease, Third Avenue stock will receive only the net income above expenses and fixed charges; for the next two years dividends of 5 p. c. per annum; for the succeeding four years, 6 p. c. per annum; and thereafter 7 p. c. per annum (see Manual for 1901, page 987). The operations of the Third Avenue RR. system are reported separate from and are not included in those of the Metropolitan Street Ry. Co. The Third Avenue RR. Co. also leased to this company the following roads, which it controls through ownership of a majority of the capital stock: Union Ry. of New York, Forty-second Street, Manhattanville and St. Nicholas Avenue Ry., Dry Dock, East Broadway and Battery RR., and the Kingsbridge RR., also the following, owned by the Union Ry. Co. of New York: Yonkers RR., Westchester Electric RR., Southern Boulevard RR., and the Tarrytown, White Plains and Mamaroneck Ry. (For statements of these several companies, see pages 985 to 988.) The Kingsbridge Ry. Co. was chartered on Jan. 25, 1898, with an authorized capital stock of \$1,000,000 (\$100 shares), of which \$8,600 have been issued to build an electric road from Manhattan Street and Boulevard to Kingsbridge road and West 230th St., a distance of 8.6 miles, as also from Riverdale Avenue and city line to Kingsbridge road and Amsterdam Avenue, of which 2.14 miles, to 206th Street was opened for traffic on Feb. 10, 1902.

This company also controls, through ownership of stock, the Central Crosstown RR. (with its leased line, the Christopher and Tenth Street RR.), the Fulton Street RR., the Thirty-fourth Street Crosstown Ry., and the Twenty-eighth and Twenty-ninth Streets Crosstown Ry. Cos., but their operations are reported separately (see subjoined statements). The underground electric system is being gradually substituted for horse and cable power on several of the company's lines. In July, 1900, the electric storage battery system was introduced on the Thirty-fourth Street Crosstown line.

On March 20, 1902, the property of this company was leased to the Interurban Street Ry., for 999 years, from that date, at a guaranteed rental of 7 p. c. per annum, on the stock of the lessor company, in addition to all fixed charges. The lessee is to pay \$23,000,000 into the treasury of the Metropolitan Street Ry. Co. in return for the securities liberated by the payment of the unfunded debt and other assets now almost entirely unproductive; said money to be expended in liquidating the unfunded debt, and in completing the electrical equipment of the Metropolitan system, and to be paid as required for that purpose. The Metropolitan Securities Co. owns all the outstanding capital stock of the Interurban Street Ry. Co. (see statements preceding for these two companies). The stockholders of the Metropolitan Street Ry. Co. were offered the privilege of subscribing at par for an amount of the stock of the Metropolitan Securities Co., equal to 45 p. c. of the par value of their holdings, that is for \$23,400,000 of such stock out of the total capital of \$30,000,000.

The Metropolitan Street Ry. Co. shall create a refunding mortgage to secure an issue of \$65,000,000 of 4 p. c. 100-yr. refunding bonds, of which about \$54,000,000 are to be reserved to retire and refund the several issues (27 in all) of existing bonds secured by liens upon various parts of the Metropolitan system (excluding the Third Avenue lines), as they respectively mature, and also for refunding in advance of maturity such of the existing bonds as can be advantageously acquired either by purchase or exchange for the new bonds. The Suburban Street Ry. Co., as lessee, will guarantee the interest upon these bonds. The remainder of the bonds, not reserved for refunding purposes, is to be issued against expenditures made and to be made upon lines of subsidiary companies and for other corporate purposes, and may be issued under the agreement of lease, in lieu of other assets, in part reimbursement of the funds to be provided thereunder. The present operating management will be continued in charge of the Metropolitan system (see statement for these bonds on page 979).

* These bonds, which matured May 1, 1900, are all held by the Metropolitan Crosstown, but were not taken up at Sept. 1, 1901.

The general mortgage and collateral trust bonds are for \$1,000 each, in coupon form, and \$1,000 and multiples thereof in registered form. They are a 1st mortgage on the property of the Houston, West St., and Pavonia Ferry RR. Co., commonly called the Avenue C line. It is also a first lien on the Chambers St. and Grand St. Ferry RR.; on the Fort Lee extension, from intersection of 125th St. and Amsterdam Ave. to 130th St. and North River; and on the new electric power house now being erected at 96th St. and First Ave., to cost about \$5,000,000. The mortgage is also a first lien on various pieces of real estate scattered throughout the city, with an estimated value of \$500,000. The leases of the following companies are pledged for the further security of the mortgage: Broadway and Seventh Ave. RR. Co.; 23d St. Ry. Co.; Bleecker St. and Fulton Ferry RR. Co.; Central Park, North and East River RR. Co.; 6th Ave. RR. Co.; 8th Ave. RR. Co.; 4th Ave. RR. Co.; 42d St. and Grand St. Ferry RR. Co.; 9th Ave. RR. Co. As collateral security to the mortgage there have been deposited with the trustee the following stocks: 14,000 shares out of a total authorized issue of 21,000 shares of the Broadway and Seventh Ave. RR. Co.'s guaranteed stock; 4,000 shares out of a total authorized issue of 7,500 shares of the 42d St. and Grand St. Ferry RR. Co.'s 18 p. c. guaranteed stock; 3,000 shares out of a total authorized issue of 18,000 shares of the Central Park, North and East River RR. Co.'s 9 p. c. guaranteed stock; 9,900 shares out of a total authorized issue of 10,000 shares of the 34th St. Crosstown Ry. Co.'s stock. The company has expended in acquiring the stocks above named and in making improvements not heretofore capitalized in any form, a sum in excess of \$8,000,000. Of the proceeds of these bonds, \$6,000,000 were placed in the hands of trustees to retire prior liens, or to be paid out as further expenditures are made and duly certified. The mortgage provides that if default is made in the payment of all or any part of any installment of the interest for the space of 90 days, or should any taxes or assessments remain unpaid for one year, then the entire principal sum secured by the outstanding bonds, together with the interest, becomes due.

Four p. c. Refunding 100-yr. Mtge. Bonds.—Under date of March 21, 1902, the company executed a mortgage to the Morton Trust Co., New York, N. Y., trustee, to secure an issue of \$65,000,000 4 p. c. refunding \$1,000 gold bonds, dated April 1, 1902, and due April 1, 2002, interest payable April 1 and Oct. 1, at the office or agency of the company in New York City. Bonds are in coupon form for \$1,000 each, and may be registered as to principal, or may be exchanged for registered bonds of the denomination of \$1,000, numbered from 1 upwards, or of the denomination of \$5,000, numbered from VI upwards, or of the denomination of \$10,000, numbered from XI upwards. Any registered bond may be converted into a coupon bond or bonds, with unmaturing coupons attached. The bonds are not subject to redemption.

The mtge. securing these bonds provides that of the total authorized amount, \$48,196,000, be reserved to retire existing funded obligations of the Metropolitan Street Ry. Co., and various subsidiary companies aggregating said amount; \$11,000,000 are subject to issue upon the order of the board of directors, and

the remainder (\$5,804,000) are reserved subject to the terms of the mortgage for refunding purposes until Jan. 1, 1920, after which date any balance not required for refunding purposes may be issued upon the order of the board of directors. On Aug. 2, 1902, there were listed on the New York Stock Exchange, \$12,780,000 of these bonds, of which \$11,000,000 were issued to the Interurban Street Ry. Co. (in part consideration for a payment of \$23,000,000), and \$1,780,000, sold for refunding purposes pursuant to the mortgage, with the proceeds of which the following existing obligations have been or will be retired: \$1,200,000 of consol. mtge. 7 p. c. bonds of the Central Park, North and East River RR. Co., which mature Dec. 1, 1902; \$50,000 of 1st mtge. 6 p. c. extended bonds of the Twenty-third St. Ry. Co. and \$50,000 of 1st mtge. 6 p. c. extended bonds of the Forty-second St. and Grand St. Ferry RR. Co. which bonds were called for redemption at par on July 1, 1902, and two bonds aggregating \$350,000 secured by mortgage upon a portion of the company's real estate. The mortgage securing said bonds provides that, in case of default for a period of three months in the payment of any interest, the principal of all outstanding bonds may be declared due.

The bonds are secured by mortgage upon the franchises, railroads, equipment, leases, real estate and other property of the Metropolitan Street Ry. Co., subject only to the existing mortgages of \$48,196,000 for the ultimate retirement of which \$54,000,000 of the refunding bonds are reserved in the hands of the trustee) and also by the pledge of 14,000 shares Broadway and Seventh Avenue RR. Co. stock, 4,000 shares Forty-second Street and Grand Street Ferry RR. Co. stock, 3,000 shares Central Park, North & East River RR. Co. stock, and 9,000 shares Thirty-fourth Street Crosstown Ry. Co. stock, the only prior lien upon such stock being the \$12,500,000 general mortgage and collateral trust of the Metropolitan Street Ry. Co., which forms part of the stated total existing debt of \$48,196,000. This latter amount does not include the debt of the lines of the Third Avenue RR. System.

RR. 30-yr. \$500 coupon bonds, due April 1, 1919, interest April and Oct.; \$2,700,000 (\$3,000,000 auth.) 5 p. c. consol. mtge. 40-yr. \$1,000 gold coupon, with privilege of registration, bonds, due April 1, 1930, interest April and Oct.; \$31,000 6 p. c. 20-yr. debenture \$500 gold coupon bonds (now called in and payable at office of E. W. Clark & Co., Philadelphia, Pa., March 1, 1902, after which date interest ceases) \$1,463,000 (\$1,500,000 auth.) 2d mtge. 5 p. c. 40-yr. \$1,000 gold coupon, with privilege of registration, bonds, due Dec. 1, 1933, interest June and Dec.; and \$182,000 6 p. c. 10-yr. collateral trust \$1,000 coupon notes, dated March 1, 1895, interest March and Sept.—total, \$4,551,200.

The consols and the 2d mtge. bonds are secured on the entire property now owned or which may hereafter be acquired, and are free of all taxes. A sufficient amount of consols is reserved for the retirement of the bonds of the R. C. & B. RR. Co. The authorized amount of 2d mtge. bonds is \$1,500,000, of which \$750,000 were reserved for the retirement of the debentures, which are now being exchanged at par. Interest on bonds payable as follows: on R. C. & B. bonds of 1919, at Rochester Trust and Safe Deposit Co., Rochester, N. Y.; on consols at office of Cuyler, Morgan & Co., New York, N. Y.; and on 2d mtge. bonds and collateral trust notes, at Security Trust Co., Rochester, N. Y. Trustee of bonds: Cuyler, Morgan & Co., New York, N. Y.

At a meeting of the stockholders on May 24, 1901, it was decided to retire the (then) present issue of \$5,000,000 of common stock by the issue of \$2,500,000 of new common stock and \$2,500,000 of new preferred stock, which preferred stock should carry 5 p. c. cumulative dividends from January 1, 1902, to be preferred both as to assets and dividends. The plan provided that each stockholder should have the privilege of subscribing on July 1, 1901, for 1 share of preferred stock for every 2 shares of the present (old) stock registered in his name on the books of the company at the rate of 40 p. c. in cash and 60 p. c. in the present stock of the company at a valuation of \$60 per share. It was the stated purpose of the directors to use immediately the \$1,000,000 realized by the issue of preferred stock for the liquidation of the debts of the company and the improvement of the property. This plan was carried through, and the new stock was issued in June, 1901, and cash was realized on the new issue amounting to \$1,000,000.

At the same meeting the stockholders authorized the directors of the company to make and issue a series of general mortgage bonds of the company amounting in the aggregate to the sum of \$2,500,000 to bear interest at the rate of 5 p. c. per annum, payable semi-annually, and to be of such form and tenor, and maturing at such dates as the board of directors may determine. The board of directors were further authorized and empowered to make and issue a mortgage on all the property and franchises of the company now held and owned by it, and upon other property and franchises which it may hereafter acquire, to secure the payment of said bonds; that of the said \$2,500,000 of bonds \$1,000,000 shall be issued to provide the means to liquidate the indebtedness of the company and to pay for betterments, improvements and extensions to the property of the company, and the remaining \$1,500,000 of bonds shall be

delivered to the trustees of the mortgage, to be issued from time to time, for the acquisition of additional property and for construction work, paving, improvements, betterments, and the future requirements of the company, under such conditions as may be inserted in the mortgage by the board of directors for the protection of the bondholders, including the \$1,000,000 realized by the issue of preferred stock; the total expenditure contemplated will require about \$2,000,000, including the payment of the collateral trust bonds, floating debt, paying claims, and the cost of fully equipping and improving the property. It is expected that the money realized from the sale of the preferred stock will cover all of the expenditures to be made during the present year, and that it will not be necessary to sell any of the \$1,000,000 of bonds authorized until next year.

The 1st refunding mortgage bonds were authorized to the amount of \$1,250,000 for the purpose of consolidating and refunding the company's indebtedness, and to provide the means for permanent improvements and betterments. Of these bonds, \$750,000 are outstanding; \$250,000 are reserved to retire a like amount of underlying bonds, and the balance (\$250,000) is reserved for future extensions and betterments at the rate of 75 p. c. of actual cost: to be issued only when the net earnings are equal to at least twice the interest charges on the bonds outstanding and those proposed to be then issued. The bonds are in coupon form, with privilege of registration as to principal and interest. They are secured by a first lien on the entire street railway system in the city of Erie, subject only to a prior lien of \$250,000 maturing in 1919 on a portion of the road. They are additionally secured by deposit of all of the capital stock of the Erie City Passenger Ry. and the Erie, Reed Park and Lakeside Street Ry. Cos. and by mortgage of Waldameer Park. The trust deed contains a provision for a sinking fund, which should provide for the retirement of the whole issue at or before maturity. This sinking fund calls for an annual payment, beginning April 1, 1906, of 1 p. c. of the bonds outstanding, which is to be increased in 1916 to 1½ p. c. of the bonds then outstanding. The funds so raised shall be, from time to time, invested by the trustee in the bonds of this company, provided they can be obtained at a price which will yield an interest return of at least 3½ p. c. per annum. Should the trustees be unable to obtain the bonds of this company, they may invest such funds in certain classes of approved bonds. All securities so held by the sinking fund shall be kept alive and interest thereon shall accrue to the benefit of this fund.

RAILROAD LEASED TO THE PHILADELPHIA RAPID TRANSIT CO., JULY 1, 1902.

UNION TRACTION CO.—Chartered Sept. 6, 1895, with a capital stock of \$30,000,000, for the purpose of taking over, either by lease or purchase, the stock of the Philadelphia Traction Co., the Electric Traction Co. and the People's Traction Co., and giving to the shareholders of these companies the right to subscribe for their pro rata share of this company's stock. The Philadelphia Traction Co. was leased for 999 years from Oct. 1, 1895, at an annual rental of 8 p. c. The Electric Traction Co.'s stock was bought at \$85 per share for full paid, and \$70 per share for \$30 paid; and the People's Traction Co.'s stock at \$76 per share. The shares so bought were deposited with the Pennsylvania Co. for Insurances on Lives and Granting Annuities to secure that company's Trust Receipts, known as Electric and People's Traction Stock Trusts, drawing interest at 4 p. c. per annum, said interest being guaranteed by the Union Traction Co. So far as the Union Traction Co. is concerned there is no difference in the position of these securities.

On July 1, 1896, the Electric Traction system and People's Traction system were leased for 998 years and three months at an annual rental sufficient to meet all fixed charges, including interest on Electric and People's Traction 4 p. c. Stock Trusts, so that from that date all lines are operated directly by this company as lessee.

The Union Traction Co. pays all the fixed charges of the three companies, which, including the rental to the Philadelphia Traction Co., and the interest upon the Trust Certificates, are as follows: Rental Philadelphia Traction Co., \$1,600,000; interest on Electric and People's Traction 4 p. c. Stock Trusts, \$1,189,090.32; fixed charges Philadelphia system, \$1,233,804.23; fixed charges Electric system, \$868,821.84; fixed charges People's system, \$521,334.81—total, \$5,463,051.25. Taxes and licenses per annum, \$800,460.83. For further particulars, see Manual for 1896, page 1215. This company leased the lines of the Hestonville, Mantua and Fairmount Passenger Ry. Co. for 999 years, on terms given in the statement of that company, on page 1036. The entire system on June 30, 1901, embraced 343.08 miles of road, 457.36 miles of track, 10 power houses, and 23 barns for storage equipment.

During the past fiscal year the following roads were completed and are in operation: From Germantown to Falls of Schuylkill, via Wayne Avenue, Coulter Street, and Midvale Avenue; and the extension of the Philadelphia and Gray's Ferry Lines from 36th St. and Gray's Ferry Road, across the new Gray's Ferry Bridge to 49th St. and Woodland Avenue, West Philadelphia. These extensions, together with the necessity of adding heavier and larger cars, made it necessary to increase the power output; the machinery for the increased power being installed at power house, 33d and Market Streets.

The following roads were in the course of construction on June 30, 1901, and will be completed and put in operation at the earliest possible moment: From Frankford to Germantown, via Orthodox and Arrott Streets, Fisher's Lane, Wyoming Avenue, 5th Street, Olney Avenue, Thorp's Lane, and Chew Street, and the road on 52d Street from Lancaster Avenue to Baltimore Avenue.

The Preferred "A" Shares are entitled to preference in capital and a cumulative preferential dividend of 6 p. c. over the "B" shares. The pre-preference shares, though authorized, were never issued and cannot now be issued. After their authorization, second debentures practically took their place. Par value of stock, £10 per share. The deferred "B" shares, £2,500,000, were used in acquiring the interests of the various undertakings. No dividend has yet been paid on either class of shares.

The Debenture Bonds were created in July, 1891, under a plan for the rearrangement of the debenture debt of the company, and were issued to holders of old 1st and 2d debentures on the following basis of exchange: For £100 old 1st debentures and overdue coupons, £50 of new "A" debentures, £70 of new "B" debentures, and £1 10s. in cash; for £100 old 2d debentures and overdue coupons, £120 of new "C" debentures. Default was made in payment of all 1st and 2d debenture coupons due Oct. and Dec., 1887, respectively, and a receiver appointed in Sept., 1887, under whose management the road was operated till April 6, 1891, when the company again assumed control.

The "A" Debentures are of the denominations of £50 and £100 each, and are a first lien on the company's property. They are redeemable Nov. 1, 1940, and bear 5 p. c. interest from Nov. 1, 1890, payable May 1 and Nov. 1. These bonds may be called for redemption at 115 at any time after 1910, upon six months' notice. The interest is to be paid out of the net profits from the date of first interest payment and, should the profits be insufficient to pay such interest, when accrued, it shall be cumulative. The full dividend has been paid to date.

The "B" Debentures are of the denominations of £20, £50, and £100 each, and are a second lien on the company's property. They are redeemable Nov. 1, 1940, and bear 5 p. c. interest from Nov. 1, 1890, payable May 1 and Nov. 1. These bonds, like the "A" debentures, may be redeemed at 115 after 1910, upon six months' notice. Interest is payable out of the net profits after payment of interest on "A" debentures, but is not cumulative. Should there be any deficiency in the payment of the full amount of interest for any first half-year, such deficiency shall be payable out of the profits of the second half, provided that the profits of the full year are sufficient for the purpose. In March, 1895, 17s. 6d. p. c.; in March, 1896, £1 p. c., and in Feb., 1897, £2 10s. p. c.; in Feb., 1898, £2 15s.; in Feb., 1899, £4 2s. 6d.; in Jan., 1900, £5 were paid; in Jan., 1901, £5 were paid; in Jan., 1902, £5 were paid.

The "C" Debentures are of the denominations of £20 and £100, and are a third lien on the company's property. They are redeemable Nov. 1, 1940, and bear 5 p. c. interest from Oct. 1, 1890, payable April 1 and Oct. 1. Bonds may be redeemed at any time, at par, on six months' notice. Interest is payable out of profits after provision has been made for interest on "A" and "B" debentures. In Feb., 1900, £1 7s. 6d. p. c. was paid. In 1901 £2 12s. 6d. p. c. was paid.

American Telephone and Telegraph Co.—Incorp. Feb. 28, 1885, under the laws of the State of New York; organized for the purpose of constructing, buying, owning, leasing, or otherwise obtaining lines of electric telegraph partly within and partly beyond the limits of the State of New York, and of equipping, using, operating, or otherwise maintaining the same. This company formerly controlled only the long distance lines of the American Bell Telephone Co. (see Manual for 1900, page 1061), but at the close of the year 1899 the property and business of that company, except its holdings in the stock of this company, were taken over by this company. The exchange of shares under the circular of the American Bell Telephone

Co., dated April 18, 1900, by the terms of which two shares of the stock of the American Telephone and Telegraph Co. were given for each share of The American Bell Telephone Co., has been substantially completed. By a circular dated April 18, 1900, this company offered for subscriptions by its shareholders one new share for each five shares held by them after the exchange above referred to. Of the total number of shares so offered (108,545), 103,018 were subscribed for, and 52,175 shares were issued on Aug. 1, 1900, and 50,843 shares on Jan. 15, 1901; those remaining (527 shares) were sold by auction and issued in Feb., 1901.

The first long distance line constructed was that between New York and Philadelphia, and was completed in 1886. In 1887 it was extended from New York to Albany and to Boston. In 1888 an extension was built from Albany to Buffalo, and new lines were built from Chicago to Milwaukee and from Boston to Providence. In 1889 an extension was built from Philadelphia to Baltimore and to Washington, and a second line was completed between New York and Boston. The long distance line from New York to Chicago was opened on Oct. 18, 1892, and an extension of it to Boston on Feb. 7, 1893. The tables of mileage, hereunder, include the Long Distance toll system owned and operated by this company. This system, on Jan. 1, 1902, consisted of 14,886.35 miles of pole line and cable, and 198,684.26 miles of wire; an increase during the year of 2,458.72 miles of pole line and cable, and 31,273.87 miles of wire. The long distance lines extend from nearly all the important cities on the Atlantic seaboard throughout the country as far west as St. Paul, Minneapolis, Omaha, Kansas City, Little Rock, and New Orleans, forming main lines over which telephonic communication between practically all of the exchange stations within the territorial limits above defined may be established. The investment in line construction, equipment, and supplies for this system, up to Dec. 31, 1901, amounted to \$19,116,209.40. The gross revenue from the toll traffic upon these lines shows an increase of 16.72 p. c. over the amount earned in 1900.

This company acquired control of the Western Telephone and Telegraph Co. in Jan., 1902 (see subjoined statement).

COMPANIES CONTROLLED BY THE AMERICAN TELEPHONE AND TELEGRAPH CO.

WESTERN TELEPHONE AND TELEGRAPH CO.—Organized Jan. 22, 1902, under the laws of the State of New Jersey, as successor to the Erie Telegraph and Telephone Co., a corporation organized June 22, 1883, under the laws of the State of New York, and whose principal assets consisted of a controlling interest in the stocks of the Cleveland Telephone Co. of Ohio, the Northwestern Telephone Exchange Co. of Minn., the Southwestern Telegraph and Telephone Co. of New York, the Michigan Telephone Co. of Mich., and the Wisconsin Telephone Co. of Wis. (see Manual for 1901, page 1118 et seq.). All the property and franchises of the Erie Telegraph and Telephone Co. were in Jan., 1902, sold and transferred to this company. The American Telephone and Telegraph Co. owns a controlling interest in the stock of this company.

PLAN OF REORGANIZATION OF THE ERIE TELEGRAPH AND TELEPHONE CO.—On Dec. 19, 1901, the directors of the E. T. & T. Co. informed the shareholders of that company that on Jan. 10, 1902, negotiable notes to the amount of \$9,000,000 would become due; that the company had then on hand no cash or securities upon which cash could be raised to meet those maturing notes; and, further, that to put the subsidiary companies into proper physical condition it was necessary to expend in the near future probably not less than \$6,000,000 which the Erie Co. was unable to furnish, and that a plan for the reorganization of the company's finances was being prepared. This plan is dated Dec. 19, 1901, and provides for the formation of a new company to acquire all of the assets, or substantially all, of the Erie Telegraph and Telephone Co., and with authority to issue \$16,000,000 preferred stock, \$16,000,000 common stock, and \$10,000,000 collateral trust 5 p. c. gold bonds. The \$9,000,000 notes above referred to were paid off. Holders of \$5,000,000 of Erie bonds, due in 1928 and 1929, received for each \$1,000 bond, \$800 in new 5 p. c. bonds and two shares of preferred stock of the new company. The holders of \$5,000,000 of Erie bonds, due in 1909 and 1926, received for each \$1,000 bond, \$1,050 in 5 p. c. bonds of the new company. Holders of the stock of the Erie Co. were offered the opportunity to buy preferred and common stock in the new company upon payment by them of \$25 per share for each share of their holding and surrender of such share. Each holder of four shares, upon such payment of \$25 per share and surrender of his certificates, received one share of preferred stock and three shares of common stock in the new company. From the balance of the securities of the new company a majority of both preferred and common stock was sold to the American Telephone and Telegraph Co.; the \$9,000,000 outstanding notes of the Erie Co. were paid and \$6,000,000 were paid into the treasury of the new company.

Financial Statement, Aug. 1, 1902.—Capital stock authorized and issued (preferred, \$16,000,000; common, \$16,000,000), \$32,000,000; funded debt outstanding (collateral trust 5 p. c. 30-yr. \$1,000 gold coupon, with privilege of registration, bonds, due Jan. 1, 1932, interest Jan. and July at the office of the trustee, Old Colony Trust Co., Boston, Mass.), \$9,534,820—total stock and bonds outstanding, \$41,534,820.

The preferred stock is entitled to 6 p. c. dividends and becomes accumulative after two years from date of issue and has a preference for its face value as to assets in case of liquidation. Transfer agent, Old Colony Trust Co., Boston, Mass. Registrar, National Shawmut Bank, Boston, Mass.

The authorized issue of collateral trust bonds is \$10,000,000; they are secured by deposit of all the stocks and bonds owned by the company.

The voting power of the several classes of stock is equal, being one vote for each share of stock.

The 1st preferred cumulative stock is entitled to receive quarter-yearly dividends at the rate of 5 p. c. per annum of the par value of their shares, and no more. This right is prior to and superior to the right of either the 2d preferred stock or the common stock to receive any dividend whatever. The dividends on the 1st preferred stock shall be cumulative, so that if in any quarter year dividends at the rate of said 5 p. c. per annum shall not be paid thereon the deficiency shall be paid before any dividends shall be paid upon or set apart for any other stock. In the event of the liquidation or dissolution or winding up, whether voluntary or involuntary, of the company, the holders of the 1st preferred cumulative stock shall be entitled to be paid in full, both the principal of their shares and the dividends accrued thereon, before any amount shall be paid to the holders, either of the 2d preferred stock or of the common stock. Any of the shares of the 1st preferred stock may, at the election of the respective holders thereof, be converted at any time, when the stock transfer books of the company are open, into the 2d preferred stock or into the common stock of the company, share for share. The total capital stock of the corporation shall not be increased by such conversion.

The 2d preferred stock and the common stock have been issued for value, but both the 2d preferred and the common stock are largely held by a single interest. The 2d preferred stock is entitled to dividends at the rate of 6 p. c. per annum and no more. This right is prior to the right of the common stock to receive any dividend whatever. These dividends are cumulative, and in the event of liquidation or dissolution of the corporation the holders of the 2d preferred cumulative stock shall be entitled to be paid in full, both the principal of their shares and the dividends accrued thereon, before any amount shall be paid to the holders of the common stock. The common stock is entitled to all the surplus earnings, but only when and as the same shall be declared as dividends, and only after dividends upon the 1st preferred cumulative stock and the 2d preferred cumulative stock have been paid or shall have been set apart. In case of liquidation the common stockholders are entitled to all the assets of the company remaining after the 1st preferred stock and the 2d preferred stock shall have been liquidated in full, both principal and accrued dividends. The capital stock, and any class thereof, may be increased or decreased from time to time, but only by vote of the holders of the majority of the shares of each class of stock then outstanding.

On Dec. 15, 1897, the Chicago Stock Yards Co. leased its track system, together with its locomotives and equipment, for a period of 50 years to the Indiana State Line Ry. Co., the capital stock of which (\$200,000) was owned by this company. The rental reserved assures the Chicago Company ample returns for the value and earning capacity of the property thus leased. On Jan. 1, 1898, an agreement of consolidation was entered into between the Chicago and Indiana State Line Ry. Co. and the Chicago, Hammond and

Western R.R. Co., whereby these two companies were merged into a new corporation, formed for this purpose, and called the Chicago Junction Ry. Co., with a capital of \$2,200,000, the stock of these two first-named companies being exchanged for the stock of the new company, share for share. All the stock of the consolidated company is now owned by this company, except the few shares held by and qualifying the directors. This consolidation took effect upon the completion of the Chicago, Hammond and Western R.R. April 1, 1898. The earnings of the trackage system of the Chicago Company, heretofore shown in its statement, will appear after that date in the statement of the new corporation, the Chicago Junction Ry. Co.

The following is a comparative statement of the gross and net earnings of the Chicago Stock Yards and the Chicago Junction Ry. for the years ending respectively Dec. 31, 1900, and Dec. 31, 1901. The earnings for 1900 of the two companies are given together, and those for 1901 separately:

valued at \$303,713.65; The Pueblo Realty Trust Co., \$500,000, valued at \$402,714.13; The New Mexico Ry. and Coal Co. preferred stock, \$14,700, not valued; The New Mexico Ry. and Coal Co. common stock, \$20,700, not valued. Bonds: The Colorado Fuel Co. 1st mtge. 6s, \$58,000; The Colorado Fuel and Iron Co. gen. mtge. 5s, \$52,000. Total of stocks and bonds, \$1,122,300, valued at \$952,127.78.

Preferred stock is entitled to dividends of 8 p. c. per annum before common receives any dividends. At a special meeting of the stockholders, held Sept. 25, 1899, the articles of incorporation of the company were amended, increasing the authorized capitalization to \$25,000,000 consisting of \$23,000,000 of common and \$2,000,000 of preferred stock, the entire increase of \$12,000,000 being in common stock. The purposes of this increase are fully stated on page 1107, of the Manual for 1901. At a special meeting of the stockholders, held July 13, 1901, it was voted to increase the capital stock to \$40,000,000 (by the issue of \$15,000,000 additional common stock), and to authorize an issue of \$15,000,000 5 p. c. 10-yr. gold debentures, convertible into common stock. The purpose of these issues is to furnish the capital required for auxiliary plants not before provided for, and for further diversifying the products manufactured, and for such capital as is needed to handle the increased business. (See description of Convertible Debentures below.)

Funded debt consisted, June 30, 1901, of \$888,000 Colorado Fuel 6 p. c. 30-yr. gold bonds, due May 1, 1919, interest May and Nov., at the Atlantic Trust Co., New York; \$2,441,000 (\$3,499,000, less \$778,000 in sinking fund \$133,000 deposited with Central Trust Co., and \$147,000 deposited with Central Trust Co. to release bonds) Colorado Coal and Iron 1st consol. ext. 6 p. c. 20-yr. \$1,000 gold bonds, due Feb. 1, 1900, interest Feb. and Aug., at the Knickerbocker Trust Co., New York, and \$2,674,000 gen. mtge. 5 p. c. 50-yr. \$1,000 gold bonds, due Feb. 1, 1943, interest Feb. 1 and Aug. 1, at the Chase National Bank, New York.

The gen. mtge. bonds are part of an authorized issue of \$6,000,000, of which \$2,000,000 were sold for the purpose of supplying working capital for improvements at the steel works, for opening and equipping additional mines and building additional coke ovens. The remaining bonds are retained by the trustee to retire the outstanding bonds of the Colorado Coal and Iron Co. and of the Colorado Fuel Co. These bonds are secured by mortgage to the Central Trust Co., New York, N. Y., as trustee on all the property and assets of the company, subject to prior liens. The property securing the mortgage consists principally of coal lands owned, 69,265 acres; coal lands leased, 3,670 acres—total, 72,935 acres. Iron lands owned, 2,452 acres; iron and steel plant, water supply, reservoirs, etc., lands owned, 1,045 acres; unclassified lands owned, 600 acres—total, 77,032 acres. Town lots, Pueblo, Walsenburg, Crested Butte, Rouse and Sopris, 593 lots. Fifteen coal mines in operation, daily capacity, 12,000 tons; 1 coal mine in course of development; 851 coke ovens in operation, daily capacity, 1,000 tons; two iron mines in operation, daily capacity, 1,000 tons; iron and steel plant near Pueblo, Col., etc., etc. Of the foregoing property, 13,035 acres of coal lands are not covered by any of the prior mortgages, so that as to that property the Colorado Fuel and Iron Co. mortgage is a first and only lien. There were outstanding on June 30, 1900, \$769,000 Grand River Coal and Coke Co. 1st mtge. 6 p. c. 30-yr. \$1,000 coupon bonds, due April 1, 1919, interest April and Oct., in New York. On May 23, 1900, there were listed on the New York Stock Exchange \$180,000 additional Grand River Coal and Coke Co. 6 p. c. bonds, making the total outstanding on that date, \$949,000; the sinking fund as provided in the mortgage securing these bonds is 3 cents per ton on each ton of coal mined and sold from the lands securing the bonds, and 3 cents per ton on each ton of coke manufactured from coal mined on said land.

The general mortgage provides for the setting aside of a sinking fund of 2 cents per ton on all coal mined and 5 cents per ton on all iron mined. This fund can be invested by the company in the purchase of coal or iron lands to replace those mined out, but if not so invested shall be paid to the trustee; or a majority of the bondholders may demand that the entire amount be paid to the trustee. The trustee is authorized to invest the sinking fund in the general mtge. bonds of the company by purchases in the open market, or can redeem by lot at 105 and accrued interest on Feb. 1 each year.

On Sept. 1, 1902, the entire amount of these bonds (\$6,000,000) had been issued or provision made for their issuance, in pursuance of the terms of the mortgage.

Colorado Coal and Iron Co. 1st Consolidated Mortgage Bonds.—These bonds (amounting to \$3,500,000 authorized issue) matured Feb. 1, 1900, but were extended to Feb. 1, 1902, by extension agreement of Jan. 10, 1900, at the rate of 6 p. c. per annum. Through the operation of the sinking fund, \$756,000 bonds have been acquired by the trustee and are now held by him.

Five Per Cent. Convertible Gold Debentures.—These debentures were authorized to the amount of \$15,000,000 at a special meeting of the stockholders, held July 13, 1901. They are dated Aug. 1, 1901, and mature Aug. 1, 1911, interest Feb. 1 and Aug. 1; are for \$1,000 each, and are redeemable at 105, at the option of the company on any interest date after Aug. 1, 1906. Provision is made in each debenture that it may be converted at the option of the holder, into ten shares of the common stock of The Colorado Fuel and Iron Co., of the par value of \$100 each, on or at any time after Feb. 1, 1902, until and including Aug. 1, 1906, with an adjustment of current or accrued interest and dividends, as between the debenture and the stock into which the same may be converted; all as provided in the agreement dated Aug. 1, 1901. The debentures may be registered as to principal. Of these debentures, \$10,000,000 have been issued, the proceeds of which are to be used only for additions and improvements to the plant of the company, and for working capital, and for other corporate purposes, and the proceeds of the remaining \$5,000,000 of debentures to be used only for the acquisition of additional property. It is provided that the \$15,000,000 common stock (authorized July 13, 1901) shall remain in the treasury of the company, to be issued only in exchange for the 5 p. c. 10-yr. convertible gold bonds of \$1,000 each of the Colorado Fuel and Iron Co., until and including Aug. 1, 1906.

In July, 1902, \$3,000,000 of the remaining \$5,000,000 of these convertible debentures were issued.

On Dec. 4, 1899, by a vote of the shareholders of this company, the authorized capital was increased from \$10,000,000 to \$15,000,000. Of the \$5,000,000 increase, \$3,333,300 have been issued and subscribed for by the stockholders at par, to provide for the manufacture, laying, and equipment of additional submarine cables and for the erection of buildings at the company's stations.

Funded debt consisted, Dec. 31 1901, of \$10,952,000 1st mtge. 4 p. c. 500-yr. gold coupon and registered bonds, dated Jan. 13, 1897, interest Jan., April, July, and Oct., and \$9,048,000 4 p. c. debenture stock, issued in exchange for 1st mtge. bonds. Interest on coupon bonds is payable at the office of the trustee, Farmers' Loan and Trust Co., New York, N. Y.; on registered bonds, at the company's office. Coupon bonds are for \$1,000 each; registered bonds for \$100, \$500, \$1,000, \$5,000 or \$10,000. Coupon bonds are convertible into registered bonds. Registered bonds are transferred at the company's office. The authorized issue of bonds is \$20,000,000, of which \$15,000,000 were issued in payment for the Postal Telegraph Co.'s property, the stock of that company receiving bonds, dollar for dollar, and \$3,000,000 were issued for the purchase of the property of the Pacific Postal Telegraph-Cable Co. and further extensions of land lines, thereby adding to the company's land line system 3,449 miles of poles, 12,811 miles of wire, and 468 offices. At any time any or all of the \$20,000,000 bonds may be exchanged for 4 p. c. debenture stock at the rate of £206 of debenture stock for each \$1,000 of bonds. The debenture stock is issued in certificates for £1 sterling and upwards and is secured by the same mortgage in the same manner that the bonds corresponding thereto were secured before their cancellation. Interest on debenture stock is payable only in London, and stock can be transferred only on the books in London. Debenture stock cannot be converted into bonds.

The bonds are secured by a first mortgage covering (a) the property of the Commercial Cable Co., including its triplicate system of submarine telegraph lines which comprise 9,110 miles of cable. (b) All the telegraph lines, property and assets of the Postal Telegraph Co., the telegraph lines being about 90,000 miles in length, all of which are free from other indebtedness. The ownership and control of these telegraph lines are secured to the trustee by mortgage and by transfer to, and deposit with, the trustee of \$15,000,000 capital stock of the Postal Telegraph Co. There are also about 28,000 miles of telegraph lines owned by subsidiary companies, whose stock was owned by the Postal Telegraph Co., which stock has been placed under the 1st mortgage, and the holdings transferred and delivered to the trustee. Certain leases by which the Postal Telegraph Co. operates about 8,733 miles of telegraph lines are also covered by the mortgage. (c) All income from both companies is covered by the mortgage.

No. 1, Manhattan Lighting Co., and the North River Electric Light and Power Co. are

Of the \$15,000,000 bonds authorized by the 1st mortgage of the Power Co., \$11,500,000 have been issued, and \$3,500,000 are retained by the trustee to be disposed of only for the purposes of acquiring additional plants and properties or improving the company's properties or the properties of controlled companies whose stocks are or shall be made subject to the lien of the mortgage and the purchase money mortgage.

The purchase money bonds of the N. Y. G. & E. L., H. & P. Co. were issued in exchange for the \$9,200,000 capital stock of the Edison Electric Illuminating Co. of New York. Authorized amount, \$21,000,000; actually issued, \$20,929,391; balance in hands of trustee to take up outstanding Edison stock. They are secured by deposit of that stock; by a mortgage on the properties of the company, subject to the lien of the company's 1st mortgage, and by a \$4,000,000 cash guaranty fund deposited with the Central Trust Co. of New York for investment in approved 1st mtge. bonds. It is provided that this guaranty fund may be invested in extensions of the Edison property. The new company (New York Edison Co.) executed a supplementary mortgage to the Central Trust Co., trustee, covering all the property, rights, franchises, etc., as additional security for the purchase money mtge. bonds. The purchase money bonds are subject to redemption at par and accrued interest at any time previous to Feb. 1, 1902.

The 1st mtge. bonds of the Edison Electric Illuminating Co. of N. Y. are secured by a mortgage to the Central Trust Co. of New York, trustee, for \$5,000,000, all of which are issued. During 1893, \$688,000 of these bonds were converted into stock, leaving outstanding, Jan. 1, 1896, \$4,312,000. The privilege of conversion expired in 1895. The bonds are an absolute mortgage on the company's property, real, personal, and mixed, acquired or to be acquired, constituting plant and appurtenances, in the city of New York, below 70th St., together with all corporate rights and franchises, licenses, patents, etc. These bonds were convertible into stock on the 21st of Jan. and July from 1892 to 1895, inclusive. It was provided that whenever 75 p. c. of the bonds should have exercised the right of conversion the company might require the holders of the remaining bonds to convert them into stock or to accept payment for them at 10 p. c. premium; or at any time after Sept. 1, 1900, whether such 75 p. c. shall have consented or not, the company may pay the bonds in cash at 110 p. c.

The 1st consol. mtge. bonds of the Edison Elect. Ill. Co. of N. Y. are secured by mortgage to the Morton Trust Co. of New York, trustee. The authorized issue is \$15,000,000, of which \$4,312,000 are reserved to pay off, at or before maturity, the existing 1st mtge. 5s of the Illuminating Co., due 1910; and \$8,500,000 bonds remain in the treasury for future use. The mortgage provides that these last-mentioned bonds shall be issued from time to time, for the purpose of new construction and acquisition of property, to an extent not exceeding \$1,000,000 in any one year, but with a restriction that the entire outstanding bonded debt of this and the previous issues shall at no time exceed the amount of outstanding paid-up capital stock. In addition to covering all the valuable real estate of the company on which its five central stations are erected (one of them the largest in the world) the consol. mtge. bonds are secured on all the company's property and franchises on Manhattan Island now owned, and all of which may hereafter be acquired as appurtenant thereto, and all other property of every kind acquired, subject only to the existing \$4,312,000 1st mtge. 5s until redeemed. "Securities Owned" in above balance sheet consists of \$1,000 stock in Rapid Coaling and Transit Co., and \$150,000 1st mtge. C. C. Co. treasury bonds.

"Royalty Fund Investments" in above balance sheet consists of 24,404 acres of coal lands, \$686,836.33; cash with Guaranty Trust Co., \$566.89; cash held in company's treasury, \$338,829.99—total, \$1,026,233.21.

"Other Investments" in above balance sheet consists of 2 iron steamers, \$116,000; 3 sea-going tugs and 16 barges, \$326,462.13; 21 canal boats, \$5,000; fixed machinery and other mining fixtures, \$198,549.36—total, \$846,011.49.

"Since 1891, the Railroad Company, acting under the advice of counsel, has refused to pay the taxes assessed upon its gross receipts by the State of Maryland, contending that the taxes so assessed amounted to a regulation of its business of interstate commerce and were therefore unconstitutional. The law provided no means whereby this question could be brought into the courts for determination, at the instance of the Company; and it was not until 1899 that the State of Maryland took the necessary step for this purpose, by bringing a suit for collection of the taxes. The Maryland Court of Appeals affirmed the validity of these taxes, but thereafter a settlement was effected with the State whereby the accrued interest and prescribed statutory penalties for non-payment were rebated. The amount paid in settlement was \$88,008.01, which has been charged against the 'Profit and Loss' account."

Funded debt outstanding, Dec. 31, 1901, consisted of \$1,000,000 C. & P. RR. 1st mtge. 5 p. c. 30-yr. \$1,000 bonds, due May 1, 1921, interest May and Nov., and \$750,000 Consolidation Coal Co. 4½ p. c. 1st mtge. 25-yr. gold bonds, due July 1, 1922, interest Jan. and July. Against this there is invested in the sinking fund of the C. & P. RR. 1st mtge. bonds, \$199,541.81, and in the sinking fund for 4½s, \$101,040.15. Interest payable in New York, N. Y., at the office of the Guaranty Trust Co. The total issue of 4½s was \$750,000, of which \$600,000 were sold at par, and \$150,000 are still in the treasury. A provision in this mortgage creates a sinking fund for the redemption of the bonds at maturity, by requiring the company to deposit annually with the trustee a sum equal to one cent per ton on the entire coal output, with a minimum of \$18,000 to be invested by the trustee at a price not to exceed \$1.050 and accrued interest. The sum of \$21,287.85 was paid over to the trustee on Dec. 1, 1901, but not being able to purchase the bonds at the stipulated price, the requisite number were drawn. These bonds (21) together with the 71 drawn or purchased in the preceding four years, are now in the custody of the trustee as a sinking fund. The bonds are secured by a mortgage of the company's lands. The mortgage securing the C. & P. RR. 5 p. c. bonds requires the company to deposit annually \$25,000 with the trustees under it, to be invested by them and held as a sinking fund.

Directors (elected Feb., 1902).—Edward R. Bacon, L. F. Loree, O. G. Murray, Arthur Hale, Geo. M. Shriner, Geo. C. Jenkins, L. G. Haas, C. L. Woodford, James M. Quigley, Geo. A. Von Lingen. COMPANIES CONTROLLED BY THE CONSOLIDATED TOBACCO CO.

AMERICAN TOBACCO CO. (THE).—Incorporated for fifty years, Jan. 21, 1890, under laws of New Jersey, for the purpose of curing leaf tobacco, buying, manufacturing, and selling tobacco in all its forms, and establishing factories, agencies, and depots for the sale and distribution thereof, besides doing all things incidental to the business of trading and manufacturing aforesaid, etc., with power to carry on its business in all other States and Territories of the United States, and in Canada, Great Britain, and all other foreign countries. (For statement of property purchased, see Poor's Hand-Book of Investment Securities for 1892-93 and Manual for 1896, page 1258.) Early in 1898 the company purchased the property and assets of the Brown Tobacco Co., St. Louis, Mo., and of the Drummond Tobacco Co., St. Louis, Mo., and in Feb., 1899, purchased the property and assets of the Union Tobacco Co. of America, including more than 98 p. c. of the capital stock of the Blackwell's-Durham Tobacco Co. During the year 1898 the company sold to Continental Tobacco Co. all assets, brands, real estate and good will pertaining to its plug tobacco business situated in Louisville, Ky., and St. Louis, Mo., including the National Tobacco Works, of Louisville, Ky., purchased in 1891, the James G. Butler Tobacco Co., purchased in 1895, the Drummond Tobacco Co. and the Brown Tobacco Co., purchased in 1898—all of St. Louis, Mo., receiving therefor preferred and common stock of Continental Tobacco Co. amounting to \$30,274,200 (see Manual for 1901, page 1098). This company sold to the American Snuff Co. all assets, brands, real estate, and good will pertaining to its snuff business, receiving therefor preferred and common stock in that company amounting to \$4,405,300 at par. Cash to the extent of \$2,195,259.80 has been expended by this company during the year in the purchase of stocks of other companies.

There has been no change in the capital stock of dividend scrip during the past year; the total amount now outstanding being \$54,500,000 common stock, \$14,000,000 preferred stock and \$3,014,490 dividend scrip issued May 1, 1896. Cash to the extent of \$11,908,264.93 was expended by the company during the year in the purchase of properties, plants, business and stocks of other companies.

The following statement does not include the company's share, amounting to about \$1,500,000, of the undivided net earnings for 1901 of companies in which it is interested, which undivided net earnings it has been deemed advisable not to declare as dividends, but to let remain for the present as surplus on the books of those companies.

This company is controlled by the Consolidated Tobacco Co. through ownership of stock.

Operations, year ending Dec. 31, 1901.—Net earnings, after deducting all charges and expenses for management, etc., \$6,647,114.35, from which were paid 8 p. c. dividends on the preferred stock, \$1,120,000, and 6 p. c. interest on scrip (issue May 1, 1896), \$180,890.20—total, \$1,300,890.20. Net income, \$5,346,224.15; surplus forward, \$4,308,093.41—total, \$9,654,317.56. Deduct dividend (6 p. c.) on common stock, \$3,270,000. Surplus, Dec. 31, 1901, \$6,384,317.56.

The preferred stock is entitled to a preferential dividend, not exceeding 8 p. c. non-cumulative, payable quarterly before any earnings go to the holders of the common stock. Upon dissolution or liquidation of the corporation, the preferred stock must be redeemed at par before any amount is paid to the holders of the common stock. The preferred stock has equal voting power at stockholders' meetings with the common stock. This equality in voting power with the common stock is share for share, and not value for value; the preferred stock is \$100 per share and the common stock is \$50 per share, but one share of common, although of only half the par value of a share of preferred stock, has equal voting power with it.

The \$3,014,490 of scrip issue shown in above balance sheet is a 6 p. c. scrip of the American Tobacco Co., outstanding and payable May 1, 1902. This scrip is like any other interest-bearing bill payable. Its payment, principal and interest, is a charge upon the whole property of the American Tobacco Co., and upon the dissolution or liquidation of the company it would be necessary that it be discharged in full before any amount could be paid to the holders of the preferred or common stock, and in this respect, as in all others, it is like any other debt.

Among the assets acquired by the purchase of the Union Tobacco Co. of America were \$3,000,000 in cash, 157,273 shares out of a total of 160,000 shares (par, \$25) of the capital stock of Blackwell's-Durham Tobacco Co., and all other assets, tools, machinery, tobacco and stocks in other companies owned by the Union Tobacco Co. of America on Feb. 1, 1899.

(see page 1120).

During the past year the company expended cash to the extent of \$5,737,375.18 in the purchase of stock in, and property, businesses, plants, and assets of other companies. The following statement does not include this company's share, amounting to more than \$500,000, of the undivided net earnings for 1901, of companies in which it is interested, which undivided net earnings it has been deemed advisable not to declare as dividends, but to let remain for the present as surplus on the books of these companies.

Capital stock authorized, \$100,000,000, consisting of \$50,000,000 7 p. c. non-cumulative preferred stock and \$50,000,000 common stock. Capital stock outstanding (\$48,844,600 preferred and \$48,846,100 common), \$97,690,700. In April, 1899, the authorized amount of both preferred and common stock was increased from \$37,500,000 to \$50,000,000. The preferred stock has priority over the common stock for non-cumulative dividends up to 7 p. c. per annum out of the net profits, and for its full par value out of the assets in the event of a dissolution of the corporation.

The authorized amount of the gold debenture bonds is \$2,000,000; they are for \$100, etc., each; were issued in 1900 and mature April 1, 1905, interest April and Oct., at office of Baring, Magoun, & Co., New York, N. Y. These bonds to the amount of \$1,581,100 issued to purchase the P. Lorillard Co.'s preferred stock. The preferred stock of P. Lorillard Co. amounts to \$2,000,000, and it is an 8 p. c. cumulative preferred stock. These debentures were issued in payment for this stock at par; the whole issue cannot exceed \$2,000,000, for the reason that the whole preferred stock of P. Lorillard Co. is only that amount. These gold debenture bonds do not differ in any respect from any other bill payable that bears interest at the rate of 7 p. c. per annum. They are not secured by any specific lien, and their payment, principal and interest, is a charge upon the whole property of Continental Tobacco Co., and, upon dissolution or liquidation of the company, they, like any other debt, would have to be paid in full before any amount could be payable to the holders of the preferred or common stocks.

Detroit City Gas Co.—Organized in Michigan, Jan. 17, 1898, to manufacture and sell gas for lighting or other purposes in Detroit and Monroe, Mich., and the other cities, towns and villages through which its pipes may pass. On March 1, 1898, the company purchased the Detroit Gas Co., which up to that date had been supplying Detroit with artificial gas and Detroit and Monroe with natural gas for fuel and lighting purposes. This company is operating under an ordinance of the City Council passed in 1893 granting ample authority for 30 years from that date.

At the time of this purchase the property of the Detroit Gas Co. was subject to the following indebtedness: (a) 1st mtge. 6 p. c. liens, all overdue, amounting to \$2,117,697.38. (b) A 2d mtge. lien of \$2,000,000, being the mortgage dated Feb. 1, 1893, made by the Detroit Gas Co., to New York Guaranty & Indemnity Co., as trustee, to secure the payment of 4,500 bonds of \$1,000 each (known as consolidated bonds), dated Feb. 1, 1893, due Feb. 1, 1918, bearing interest at 5 p. c. per annum, payable Feb. 1 and Aug. 1, in each year. Of said 4,500 bonds, only 2,000 bonds, viz.: bonds Nos. 1 to 1,000, both inclusive, and 3,001 to 4,000, both inclusive (being all the bonds ever issued under said mortgage), were outstanding. Of the remainder of said 4,500 bonds, 2,000 bonds (to wit: Nos. 1,001 to 3,000 inclusive) were set aside to take up the above-mentioned 1st mtge. liens, but were never used for that purpose, and the remaining 500 bonds (to wit: Nos. 4,001 to 4,500 inclusive) were to be used by the Detroit Gas Co., for acquiring additional property. The 500 bonds last mentioned have been cancelled. (c) A 3d mtge. lien of \$200,000, being the mortgage dated Aug. 1, 1894, made by the Detroit Gas Co., to New York Guaranty & Indemnity Co., as trustee, to secure the payment of \$200,000 bonds, due Aug. 1, 1904, known as income bonds. This mortgage was created by the Detroit Gas Co., for the purpose of funding the coupons of the consolidated bonds for two years, Aug., 1894, to Feb., 1896, inclusive. All but about \$800 of said coupons have been so funded. (d) \$300,000 of floating debt.

The Detroit City Gas Co. assumed the above obligations and executed its mortgage to the Continental Trust Co., trustee, dated Jan. 1, 1898, to secure 6,000 5 p. c. mtge. bonds of \$1,000 each, dated Jan. 1, 1898, due Jan. 1, 1923, interest payable Jan. and July. The above overdue 1st mtge. 6 p. c. liens were assigned to the trustee and are kept alive for the benefit of the holders of Detroit City Gas Co. bonds. Of the Detroit Gas Co. consolidated bonds, \$1,619,000 and \$184,000 of the same company's income bonds have been exchanged for Detroit City Gas Co. bonds, and all the floating debt has been paid.

The foregoing general balance sheet shows the assets and liabilities represented by the capital stocks of the company and by outstanding stocks of constituent companies, but for purpose of clearness it omits indebtedness from one company to another, because such indebtedness, though a liability of one company, is an asset of another company.

Capital Stock.—The total authorized capital stock of the company is \$85,000,000, consisting of \$35,000,000 preferred stock and \$50,000,000 common stock. Of the preferred stock, \$29,464,318.13 is outstanding; \$1,785,681.87 is held by the Central Trust Co., trustee, to provide for stocks of constituent companies not exchanged and \$3,750,000 is in the treasury of the company. The authorized capital under the charter was originally \$125,000,000 divided into \$70,000,000 common and \$55,000,000 preferred stock. On Dec. 20, 1901, by the vote and assent of more than two-thirds of the then outstanding and issued shares of common and preferred stock, respectively, the authorized capital stock was decreased, such decrease being effected out of the unissued common stock and preferred stock, viz.: \$20,000,000 of each class.

Funded debt outstanding, Dec. 31, 1901, consisted of \$4,080,000 (auth. \$5,000,000) collateral trust 5 p. c. \$1,000 gold bonds, dated 1901, due Jan. 1, 1911, interest Jan. 1 and July 1 at office of trustee, Mercantile Trust Co., New York, N. Y., and \$1,872,000 American Spirits Manufacturing Co. 1st mtge. 6 p. c. 20-yr. \$1,000 gold coupon, with privilege of registration, bonds, due Sept. 1, 1915, interest Jan. and July at office of the trustee, Manhattan Trust Co., New York, N. Y.

The collateral trust bonds are in coupon form, with power of registration as to principal; they are subject to the operation of a sinking fund, to the amount of 10 p. c. of the par value of the entire issue to be applied to their redemption annually. Provision is made for drawing such bonds by lot each year for redemption at par, in case an insufficient amount has been purchased by, or offered to, the company. It is also provided that all of the outstanding bonds may, at the option of the Distilling Co., be called in for redemption and payment at par and accrued interest, on any interest day upon sixty days' notice. On Jan. 1, 1902, \$500,000 of these bonds were purchased for cancellation, leaving the amount outstanding, Aug. 1, 1902, \$3,580,000. These bonds are secured by deposit with the Mercantile Trust Co., New York, N. Y., trustee, of \$5,000,000 1st mtge 5 p. c. gold bonds of the Kentucky Distilleries and Warehouse Co. and all the shares of the constituent companies owned by the Distilling Co. of America. The American Spirits Manufacturing bonds are subject to call at 105.

Financial Statement, Aug. 1, 1902.—Capital stock (shares, \$10), \$5,000,000. At a special meeting of the stockholders held June 4, 1902, they authorized the decrease of the capital stock of the company from \$25,000,000 to \$5,000,000, by reducing the par value value of the shares from \$50 to \$10, the vote on the subject being 324,111 out of a total issue of 407,379, and no dissenting votes were cast. At the same meeting an extra dividend of \$1.50 per share was declared and authority given to the treasurer to accept a receipt for this dividend, and apply same as part payment of the assessment, thus reducing the actual cash to be paid in on the assessment to \$1. The last regular dividend declared and paid was 25 cents a share, Jan. 31, 1902.

Electric Vehicle Co. (The).—Incorp. in 1897 under the laws of New Jersey. The first step in this organization was the union of patents owned by the Pope Manufacturing Co. for the construction of automobiles, and of those owned by the Electric Storage Battery Co. for the manufacture of storage batteries as far as applicable to automobiles. This was brought about by the organization of the Columbia Automobile Co., in which the Pope Manufacturing Co. and the Electric Storage Battery Co. became half owners respectively. The Columbia Automobile Co. then in its turn united all the patents owned by it with those owned by the Electric Vehicle Co., through the instrumentality of a new corporation entitled the "Columbia and Electric Vehicle Co.," reserving only its right to the manufacture of storage batteries, agreeing, however, to furnish these batteries as required by the Columbia and Electric Vehicle Co. at a price fixed at 20 p. c. above the actual cost of production. The stock of the Columbia and Electric Vehicle Co. was taken in equal proportion by the Electric Vehicle Co. and the Columbia Automobile Co. respectively. The Columbia and Electric Vehicle Co. acquired immediately, by purchase, the extensive plant of the Columbia Automobile Co. at Hartford, and shortly thereafter purchased the entire capital stock of the New Haven Carriage Co., and thus acquired control of that company's important plant at New Haven. About the same time the Electric Vehicle Co. purchased substantially the entire capital stock of the Siemens & Halske Electric Co. of America, for the purpose of utilizing the great facilities in Chicago of that concern for the manufacture of the electric equipment other than storage batteries required for the construction of electric vehicles.

Fuller, George A. Co.—Incorp. March 30, 1901, under the laws of the State of New Jersey. The company is an original organization, but was incorporated for the purpose of taking over the business and properties of the George A. Fuller Co., a corporation organized under the laws of the State of Illinois, having an authorized and issued capital of \$600,000. Previous to April, 1901, the George A. Fuller Co. of Illinois had conducted a large and profitable business in the construction of buildings. In April, 1901, it was decided that a larger working capital was required to develop the business, and the present company was incorporated. The assets of the Illinois corporation were duly appraised by a committee and found to consist of two classes; the first class consisting of securities, contracts and property readily convertible into cash, valued at \$2,150,000, and the second class consisting of the good will, tools, machinery and other properties which were not readily convertible into cash, and the value of which was dependent upon

the continuance of the business of the corporation, valued at \$10,000,000. Common stock of the new company to the amount of \$10,000,000 and preferred stock to the amount of \$2,150,000 were issued in exchange for these assets. The balance of the preferred stock, amounting to \$2,850,000 was issued for cash. The company thus started with \$5,000,000 of cash assets and other assets not readily convertible into cash, amounting to \$10,000,000.

The purposes for which this corporation was formed are set forth in Article Three of the Certificate of Incorporation, viz.: The company is authorized to buy, sell, purchase, lease and improve lands and buildings; to contract for the erection of buildings, either on its own property or on the property of others; to manufacture and supply all materials required in the construction and erection of buildings; and in general, to conduct a construction business combined with what is commonly known as a general realty business. The corporation has power to conduct its business in all States and territories of the United States and in all foreign countries. The nature of the business of the company is principally in the construction of large fire-proof buildings in the cities of New York, Boston, Chicago, Pittsburgh, Philadelphia, Washington, Baltimore and Richmond. During the year ending March 31, 1902, the company entered into 38 contracts for buildings in various cities, as follows:

New York, 18, aggregating \$14,650,000; Boston, 6, aggregating \$1,805,000; Chicago, 4, aggregating \$2,850,000; Baltimore, 5, aggregating \$810,000; Pittsburgh, 3, aggregating \$5,300,000; Philadelphia, 2, aggregating \$600,000. Total, \$26,015,000.

Profit and Loss Account, March 31, 1902.—Net profits derived from contracts for the construction of buildings, \$1,520,127.41; interest and rents, \$120,124.18—total, \$1,640,251.59. Capital Stock.—Total authorized capital stock is \$50,000,000, of which \$10,000,000 may be preferred. There were issued \$30,460,000 of common stock and \$4,252,000 of preferred stock, but under an agreement effective Aug. 17, 1898, the capital stock was reduced by 40 p. c., the stockholders surrendering their shares and receiving three-fifths of the amount thereof in corresponding new shares. There was an unpaid accumulation of dividends on the original shares amounting to \$59.89 per share, but after the reduction of the capital the full amount was paid. On July 17, 1900, the stockholders authorized an increase of the common stock by \$4,415,000, the proceeds of this increased stock to be used in redeeming the outstanding debenture bonds to the amount of \$5,298,000, on the basis of \$1,000 stock for \$1,200 debentures as agreed upon when the debentures were issued in 1892.

Pursuant to the provisions of Section 47 of the Stock Corporation Law, certificates for 25,508 shares of common stock were issued during the past fiscal year upon the surrender and cancellation of certificates covering a corresponding number of 7 p. c. cumulative preferred shares of the capital stock of the company. On April 15, 1902, there were but four shares of preferred stock outstanding, the remainder having been exchanged into common. On Jan. 31, 1901, there were outstanding 239,515 shares of the capital stock of the company, par value, \$23,951,500; during the past fiscal year there have been added 9,594 shares, issued in exchange for debentures surrendered, \$959,400, making the capital stock outstanding, Jan. 31, 1902, \$24,910,900. Capital stock issued Jan. 31, 1902, \$24,910,000; authorized against \$372,000 debentures outstanding, \$310,000; authorized to be issued for \$1,000 debenture purchased for cash in Nov., 1900, and for fractions purchased to Jan. 31, 1902, \$21,300—total capital authorized, Jan. 31, 1902, \$25,242,200.

Debentures.—On Jan. 31, 1901, there were outstanding \$1,534,000 of debentures. All the debentures are on their face value exchangeable for stock at the option of their holders, at the rate of \$100 of stock for \$120 of debentures. During the past year the holders of 1,162 debentures surrendered them, and 9,594 shares of stock were issued therefor, \$1,162,000, leaving debentures outstanding, Jan. 31, 1902, \$372,000, as per balance sheet.

"Stocks and Bonds.—Due to the rapid growth of electric enterprises in all parts of the country, the value of the company's investments in stocks and bonds of local lighting and railway companies has greatly increased, particularly during the past year. No substantial change having been made in the book value of these securities since January of 1897 (a period of five years) the directors have made a careful valuation of all the separate items of stocks and bonds remaining on hand at Jan. 31, 1902. The result of this valuation is a net increase of \$2,057,685.07 in the total book value thereof. Such of these securities as are quoted on the market, or as to which there are recorded transactions, are, in accordance with the previous policy of the company, taken at prices lower than reported sales. All others are taken at values, upon which it is hoped a future profit may be realized by the company. Below will be found statements showing the most important of the company's holdings of stocks and bonds. Other than those carried at one dollar as below explained, the total par value of all stocks and bonds owned by the company is \$14,306,593.94. They are carried at an aggregate book value of \$9,825,007.93. Miscellaneous securities of many underlying, manufacturing, selling and patent owning corporations, and also of street railway and lighting companies, carried at one dollar for each lot, in all, \$113. Total book value of all stocks and bonds as per balance sheet, \$9,825,120.93."

Pursuant to the established policy of selling securities which there is no special reason for holding permanently, various stocks and bonds have been sold for cash during the past fiscal year. Their total par value was \$2,090,918. They were sold for \$2,182,687.20; they had been carried on the books at \$1,244,102.43; profit, \$938,584.77.

1134 POOR'S MANUAL—MISCELLANEOUS INDUSTRIAL CORPORATIONS.

The money realized therefrom was used in part payment for miscellaneous stocks and bonds, acquired to protect and improve existing investments, at a cost of \$2,769,024.39. Of this sum \$1,544,810.76 has been invested in shares in the capital stock of the British Thomson-Houston Co., Limited. This investment gives the General Electric Co. a controlling interest in this company, which is just putting in operation large manufacturing shops at Rugby, England.

Co. being a corporation organized under the laws of the State of New Jersey, and the Coal Co. a corporation organized under the laws of the State of Pennsylvania, the interest of the RR. Co. being through ownership of shares of capital stock of the Coal Co.

Operations.—During the year 1901, there were mined 3,414,735.05 tons of coal, an increase of 592,025.14 tons as compared with 1900, and 774,600.02 tons purchased, an increase of 300,692.03 tons over 1900. The tonnage sold during the year was 4,077,306.13 tons, an increase of 626,135.09 tons. The tonnage of prepared sizes sold, including lump, equalled 67.10 p. c. and of pea and smaller 32.90 p. c. as against 67.40 p. c. for prepared and 32.60 p. c. for the previous year. The output per day of collieries operated during the year averaged 17,290 tons, as compared with 16,856 tons output for previous year. From the company's lands, 3,216,434.06 tons of coal were mined during 1901. As every ton of coal mined from the company's property decreases its value and is an exhaustion of capital, in accordance with the practice of other companies, it was deemed advisable to set apart out of income ten cents per ton to represent depletion of the coal lands of the company. Depletion of Coal Lands Funds has been debited with the amounts credited to the mortgage sinking funds.

The 4½ p. c. bonds of 1914 are secured on the canal, 6,030 acres of coal lands, and 76 m. of Lehigh and Susquehanna RR.

Gold Bonds of June 15, 1914: The Central RR. Co. of N. J. assumed in purchase of equipment \$2,310,000 of these bonds, and \$500,000 were assumed by the Lehigh and Wilkesbarre Coal Co. They are secured by 1st mtge. on Nanticoke RR. (26 m.), and 2d mtge. on Canal Coal and RR. Of the \$4,652,500 bonds issued, \$2,810,000 were paid at maturity on Dec. 15, 1897, and \$1,842,500 were extended for a term of seventeen years from June 15, 1897, at the rate of 4 p. c., interest semi-annually. Trustee: Fidelity Co., Philadelphia, Pa.

Railroad Bonds of April 1, 1914: Secured by 1st mtge. on company's railroad from southern boundary of Mauch Chunk to Delaware River at Easton, including bridge over river. These bonds were extended on Feb. 1, 1897, date of maturity, to April 1, 1914, in gold at 4 p. c. interest. Trustee of extended bonds: Fidelity Co., Philadelphia, Pa. Interest was paid at the rate of 6 p. c. up to Feb. 1, 1897, when the reduction to 4 p. c. took effect.

Gen. Mtge. Bonds of 1924: Authorized issue, \$15,000,000, of which a sufficient amount is reserved to retire prior liens. Secured by mortgage, subject to prior bonds, on 7,460 acres of coal land, 48 m. of canal and 161 m. of railroad.

The Collateral Trust Gold Bonds were authorized to the amount of \$1,500,000 on June 3, 1895, to fund the company's floating debt and provide means for necessary improvements. They are secured by the deposit of the following securities with the Fidelity Co., trustee: 9,950 shares of stock of the Wilkesbarre and Scranton Ry. Co.; 4,450 shares of stock of the Allentown Terminal RR. Co.; \$280,000 5 p. c. gen. mtge. bonds of the Lehigh and Hudson River Ry. Co.; \$644,000 1st mtge. bonds of the Alliance Coal Mining Co., and \$2,889 shares of stock of the Alliance Coal Mining Co. There were \$1,000,000 of these bonds sold in July and Aug., 1895, and \$500,000 during 1896.

The Funding and Improvement Mtge. Bonds are authorized to the amount of \$7,500,000. The mortgage was created partly for the purpose of providing funds for the purchase of \$480,000 1st mtge. bonds of the Delaware Division Canal Co., for taking up a mortgage of \$230,000 on a portion of the company's coal lands lying west of the Little Schuylkill River, for the payment to the Central RR. Co. of New Jersey of \$289,515 due on construction loan account and \$312,571 due for advances on construction account of the Wilkesbarre and Scranton Ry., and for taking up \$425,000 of temporary loans made to provide funds to develop the property of subsidiary companies. The property pledged under the mortgage consists of a 1st mortgage on 1,348 acres of coal lands, \$800,000 bonds of the Delaware Division Canal Co., 30,000 shares of the capital stock of the Delaware Division Canal Co., and 2,500 shares of the capital stock of the Trescow RR. Co., together valued at over \$2,500,000; a second lien on the bonds and shares of stock now held by the Fidelity Co., trustee, under the collateral trust mortgage of June 1, 1895 (with the exception of \$280,000 general mtge. 5 p. c. bonds of the Lehigh and Hudson River Ry. Co.), and, in addition, a lien on all the company's canals, railroads, and coal lands. In making this mortgage, which was dated June 25, 1898, it was thought advisable to anticipate other obligations falling due during the next few years, and to provide funds for future extensions and improvements as the necessity for the same should arise.

Under the provisions of the mortgage, bonds to the amount of \$2,085,000 were certified by the trustee and delivered to the company as of July 1, 1898. Bonds to the amount of \$65,000 were issued during the past year in connection with the purchase of real estate required for railroad and canal purposes. On Jan. 1, 1901, \$975,000 of these bonds were in the company's treasury, which amount has been reduced by the above reported sales to \$910,000. The amount of outstanding bonds under this loan has been reduced \$5,000 by the operation of the sinking fund under the terms of the mortgage. A sum amounting to \$4,744, 5 cents per ton on the coal mined on Co.'s lands west of the Little Schuylkill River, was paid to the trustees, making a balance in the sinking fund of \$5,489.83. After advertisement, bonds to the amount of \$5,000, Nos. 1111 to 1115, both inclusive, were purchased on account of the sinking fund. These bonds were cancelled by the trustee and delivered to this company, Feb. 18, 1901. On Sept. 1, 1904, bonds can be issued to the amount of \$1,415,000, the proceeds of which are to be used in purchasing the outstanding capital stock of the Nesquehoning Valley RR. Co. at par to an equal amount, on which this company is now guaranteeing dividends at the rate of 5 p. c., the stock so purchased to be transferred to the trustee as additional security. On Sept. 1, 1905, bonds to the amount of \$1,500,000 are to be issued to retire the 4½ p. c. bonds issued under the collateral trust mtge. maturing at that time, amounting to \$1,500,000. The balance of the bonds, amounting to \$2,500,000, can be issued from time to time during the life of the mortgage, at a rate not to exceed \$125,000 per annum, and not to exceed 75 p. c. of the property purchased or improvements to the railroads.

Under the lease by which this company came into possession of the property of the Delaware Division Canal Co., it was provided that the Lehigh Coal and Navigation Co. should, by purchase or otherwise, make provision for the bonds of the Delaware Division Canal Co. at or before their maturity. The amount of the bonds outstanding is \$800,000. The bonds matured July 1, 1898, and were extended to July 1, 1948, with interest reduced to 4 p. c. per annum. Previous to their maturity this company had acquired \$320,000 of the bonds by operation of the sinking fund, and purchased the remaining \$480,000 on July 1, 1898.

Stock owned sixty days entitles holder to vote at annual meeting. Interest on the several issues of bonds payable at the company's office, Philadelphia, Pa. Trustee of funding and improvement mortgage bonds, The Provident Life and Trust Co., Philadelphia, Pa.; of all other bonds, Fidelity Co., Philadelphia, Pa.

Louisville and Jeffersonville Bridge Co.—Organized in 1892 under the laws of Kentucky and Indiana to build a railroad bridge across the Ohio River from Louisville, Ky., to Jeffersonville, Ind. Bridge opened for passenger trains on Aug. 18, 1895; for general traffic on Jan. 1, 1896. The bridge is used by the Cleveland, Cincinnati, Chicago and St. Louis and the Chesapeake and Ohio Ry. Cos. The company owns about 40 acres of land in the city of Louisville and 50 acres in Jeffersonville on the opposite bank of the Ohio River. The bridge is one-half mile long, with viaducts on either side, aggregating one and one-half miles. The entire property furnishes the entrance of the two railway companies into Louisville, Ky., with ample land for terminal facilities in that city and in Jeffersonville for practically all time to come.

Financial Statement, Aug. 1, 1902.—Capital stock (\$100 shares), \$1425,000. Funded debt outstanding consists of \$3,000,000 4 p. c. 50-yr. gold bonds, due March 1, 1945, interest March and Sept., at office of J. P. Morgan & Co., New York, N. Y. These bonds are secured by mortgage to the United States Trust Co. of New York and the Union Trust Co. of Indianapolis, as trustees. They are in coupon form, for \$1,000 each, with right of registration of principal. "The total amount of bonds authorized by the mortgage is \$5,000,000. The expectation was that it would be necessary to use \$4,000,000 bonds at present, but owing to various arrangements recently made, including one whereby the construction of a very expensive connection track is avoided, the work of construction is practically completed for all present purposes, at an actual cost, first and last, of over \$3,000,000, against which \$3,000,000 bonds have been issued." Of the remaining bonds, \$1,000,000 are held by the United States Trust Co. of New York, for purposes of additional construction, and the remaining \$1,000,000 are held by the trustees of the mortgage to be issued from time to time after Jan. 1, 1897, for additional construction, purchase of rolling stock, betterments, etc. Principal and interest of bonds guaranteed, jointly and severally, by the Cleveland, Cincinnati, Chicago and St. Louis, and the Chesapeake and Ohio Ry. Cos.

Preferred stock has priority over common stock for cumulative dividends at the rate of 4 p. c. per annum out of net profits and for its full par value in case of the dissolution or winding up of the trust. Both classes of stock are free from taxation in Massachusetts.

Extract from the company's report for 1901:

"In the last annual report mention was made of the fact that, based on appraisals of several of the companies, applications had been made to the Railroad Commissioners for the issue of additional capital stock, and that 6,215 shares of stock, costing at the price of issue \$667,500, had already been authorized and issued. After the appearance of the annual report, 15,878 additional shares, costing at the price of issue \$1,928,630, were authorized and issued, in order to provide for improvements and retire funded and unfunded debt (it will be noticed in Schedule D that the funded debt of the companies in which you are interested was \$615,000 less on September 30 than at the same date last year). In order to provide the means for the acquisition of these shares, your trustees were authorized, at a special meeting of the shareholders, to make an issue of not exceeding \$3,500,000 of 4½ 5-yr gold coupon notes. Of these notes, \$2,700,000 were issued as of Jan. 1 last and sold on terms very satisfactory to your board, the balance of \$800,000 still remaining in reserve. It is the intention to apply shortly to the Railroad Commissioners for authority to issue additional capital stock of the various street railway companies in which you are interested."

North American Co. (The).—Incorp. June 14, 1890, under laws of New Jersey, to acquire the assets and property of the Oregon and Transcontinental Co., and also to engage in railroad and general financing and promote street railway and electric light and power enterprises. (See Manual for 1893, page 1160.) The stock was issued in exchange, share for share, for the stock of the O. & T. Co., and on Aug. 20, 1890, the company assumed control of the Oregon and Transcontinental property. In Feb., 1897, the purchase of the Pabst light, heat, and power plant and of the property of the Milwaukee and Wauwatosa Electric Ry. Co. was consummated through the medium of the Milwaukee Light, Heat and Traction Co., organized for the purpose. The entire capital stock of this company was acquired by the Milwaukee E. Ry. and L. Co., which now owns all the electric street railways in Milwaukee and its suburbs.

On Feb. 1, 1901, this company's holdings of the preferred stock of The Milwaukee Electric Ry. and Light Co. were sold, with the exception of a small balance of 52 shares accumulated in the concentration of fractional shares, outstanding since the date of reorganization of the Milwaukee Co. This company has added to its ownership of the common capital stock of The Milwaukee Electric Ry. and Light Co., and now owns, with a trifling exception, the entire issue of that stock.

On page 1137 of the Manual for 1901, reference was made to the purchase of the gas, electric and water companies in the cities and towns of Covington, Newport, Dayton, Ludlow and Bellevue in Kentucky (lying opposite Cincinnati, O.), and their consolidation into the Union Light, Heat and Power Co., in which the North American Co. held a controlling interest. During the past year the Cincinnati, Newport and Covington Light and Traction was formed to consolidate the interests of the Cincinnati, Newport and Covington Ry. Co., and the Union Light, Heat and Power Co., and has acquired all the stock of the Union Light, Heat and Power Co., and substantially all of the stock of the Cincinnati, Newport and Covington Ry. Co., issuing in payment thereof its preferred and common stock. The North American Co. has now received preferred and common shares of the Cincinnati, Newport and Covington Light and Traction Co. in exchange for the shares of Union Heat, Light and Power Co. The old electric plants of the Union Light, Heat and Power Co. have been dismantled, and a new generating plant has been constructed in an extension of the power house of the railway company, so that current for all purposes is now produced in a single plant.

In the summer of 1901, this company purchased the entire capital stock (\$1,500,000 par value) of the Imperial Electric Light, Heat and Power of St. Louis, Mo.; the Citizens' Electric Lighting and Power Co. was consolidated with it under the laws of Missouri on May 20, 1902, under the corporate name of the Union Electric Light and Power Co. All the stock of the Imperial and Citizens' companies has been exchanged for preferred and common shares of the Union Company. The consolidated company has been awarded by the Louisiana Purchase Exposition a contract for about one-half of the electric current, which will be required by the World's Fair to be held in 1904. A syndicate has been formed, of which the Mississippi Valley Trust Co., of St. Louis and the North American Co. are managers, to provide all the capital that will be needed by the consolidated company, the Union Electric Light and Power Co.

In the last annual statement of the treasurer, a balance of \$1,547,446.08 was carried in "Unrealized Profit Account." During the past fiscal year, a sufficient amount of securities has been sold to warrant the closing of this account and the transfer of the said balance to "Income Account," which, together with other profits for the year, makes a credit balance in the last mentioned account for the year ending May 31, 1902, of \$2,103,188.08. Out of this sum, \$1,000,000 has been appropriated in further reduction of "Good-Will Account" and the final balance of \$1,049,702.49 has been carried to "Undivided Profits," and constitutes a fund available for the payment of dividends upon the capital stock of the company.

General Balance Sheet, May 31, 1902.—Capital stock (shares, \$100) authorized and issued, \$12,000,000; undivided profits, \$1,129,936.19—total, \$13,129,936.19. Contra: Good-will (as of May 31, 1901, \$2,000,000; less appropriation from income account for the fiscal year, \$1,000,000), \$1,000,000; stocks, \$8,186,896.16; 1st mtge. bonds, \$1,121,499.89; loans, \$966,900; accounts receivable, \$78,953.57; property, \$13,935.09; cash, \$1,761,803.48—total, \$13,129,936.19.

On Jan. 21, 1901, the stockholders voted to decrease the authorized capital stock from \$50,000,000 to \$12,000,000, and the outstanding capital stock to \$11,936,700 (\$100 shares by the issue of certificates in the proportion of one share for each 3 1-3 shares of the outstanding stock. At the last annual meeting the stockholders authorized the issue of the remaining capital stock authorized, viz.: \$63,000 par value. This stock has been issued and sold at a premium, thus making the full authorized amount of stock now outstanding, \$12,000,000.

R. Sheldon, Chas. A. Spofford, Charles W. Wetmore. Officers: Charles W. Wetmore, Pres.; Charles A. Spofford, Vice-Pres.; Silas W. Burt, Sec.; Geo. R. Sheldon, Treas. CORPORATION CONTROLLED BY THE NORTH AMERICAN CO.

MILWAUKEE ELECTRIC RY. AND LIGHT CO.—Shortly after its organization the North American Co. acquired the street railway and illuminating systems of Milwaukee and, for the purpose of unifying them, the Milwaukee St. Ry. Co. of New Jersey was organized with a capital stock of \$5,000,000. Exclusive licenses and patent privileges were acquired from the Edison companies for the operation of electric railways and the supplying of electric light and power for Milwaukee and the adjacent districts and also city ordinances granting franchises covering all the important streets and points in the city. The work of substituting electric power for animal traction on the railways was completed in May, 1893. Receivers were appointed for the Milwaukee Street Ry. Co. on May 21, 1895, and on Jan. 26, 1896, the property was sold under foreclosure

and purchased by the Reorganization Committee, who organized the existing company. See page 1076 for complete statement of this company.

Northern Pacific Terminal Co. of Oregon (The).—Incorporated Aug. 28, 1882, under the laws of Oregon. Acquired lands and terminal facilities on the Willamette River at Portland, East Portland, and Albina, which were leased for 50 years from Jan. 1, 1883, to the Northern Pacific RR. Co., the Oregon Ry. and Navigation Co. and the Oregon and California RR. Co. The rental due Jan. 1, 1897, by the Oregon Ry. and Navigation Co. was not paid by that company, but was advanced by the other lessees. The successor companies to the Northern Pacific RR. and the Oregon Ry. and Navigation Co.—the Northern Pacific Ry. Co. and the Oregon RR. and Navigation Co.—together with the Southern Pacific Co. and the Oregon and California RR. Co., made a formal agreement of lease, executed Feb. 16, 1899, by which the four lessee companies are to have all the rights conferred, and to be subject to all the obligations imposed, by the agreement of lease dated Dec. 14, 1882, and June 3, 1890. All rentals defaulted by the Oregon RR. and Navigation Co. and assumed by the Northern Pacific Ry. Co. and the Southern Pacific Co. have been paid. The property on both sides of the Willamette River comprises: Real estate, 270.49 acres; trackage, 32.14 m.; buildings, 39; dock frontage, 7,904 ft. The company owns 3.67 m. of main line of railroad, with 28.47 m. of sidings.

Y.; issued, \$4,097,000, of which \$310,000 have been redeemed by sinking fund, leaving \$3,787,000 outstanding. The sinking fund began in 1893, and will be sufficient to retire the bonds at maturity or the bonds may be drawn at 110 and interest. Philadelphia Company.—Incorporated by special act of the Pennsylvania Legislature, March 22, 1871, as the Empire Contract Company. The name was changed to Mexican National Ry. Co. on June 17, 1873; to Commonwealth Contract Co., on Nov. 5, 1875, and to Rio Grande Extension Co. on Oct. 31, 1879. Organized under the present title on June 11, 1884. For years the company has been supplying the cities of Pittsburgh and Allegheny, and the towns adjacent thereto, with natural (fuel) gas. For a statement in outline of the development of the company's business and of the increase of its capital stock, see Manual for 1896, page 1295; Manual for 1898, page 1167, and Manual for 1901, page 1145.

From an organization supplying fuel gas alone, the company has grown into one which supplies the inhabitants of Pittsburgh, Allegheny, and the many important manufacturing towns along the banks of the Allegheny, Monongahela, and Ohio Rivers, numbering about 600,000, almost exclusively, with fuel gas, illuminating gas, and electric light, as well as serving, the same territory with electric surface transportation. Its business may, therefore, be sub-divided into (a) street railways, (b) electric lighting and illuminating gas, and (c) fuel gas.

Street Railways.—The Philadelphia Co. owns or controls by lease the following street railway properties: The United Traction Co., the Consolidated Traction Co., the Monongahela Street Ry. Co., the Pittsburgh and Birmingham Traction Co., the Pittsburgh Railways Co., the Pittsburgh and Charleroi Street Ry. Co., the Suburban Rapid Transit Street Ry. Co., the East McKeesport Street Ry. Co., and the Tustin Street Ry. Co.—the total mileage of these properties being about 404 miles. (For statements of these several companies, see General Index—Department of Street Rys.) These railroad properties are operated under agreement by the Pittsburgh Railways Co., formerly known as the Southern Traction Co., whose shares of stock, both common and preferred, are wholly owned by the Philadelphia Co.

Electric Lighting and Illuminating Gas.—The Philadelphia Co. also owns or controls by lease the following companies, which form the lighting department of its business: Allegheny County Light Co., Monongahela Light and Power Co., Southern Heat, Light and Power Co., Consolidated Gas Co., South Side Gas Co., and Allegheny Illuminating Co. The first three named companies are the only public organizations furnishing electric current for heat, light, and power to the cities of Pittsburgh and Allegheny, and the territory immediately surrounding the same. The Consolidated Gas Co. operates under a perpetual charter and with the Allegheny Illuminating Co. and the South Side Gas Co. constitutes the only gas manufacturing companies in the cities of Pittsburgh and Allegheny, and the exclusive right to manufacture illuminating gas in said cities is vested in them.

Fuel Gas.—The Philadelphia Co., through its own lines and those of a number of companies controlled by it, supplies nearly all the fuel gas consumed in the cities of Pittsburgh and Allegheny, and the large number of manufacturing towns lying along the Monongahela and Allegheny rivers. This territory is well covered with distributing mains and is connected by larger mains of ample capacity with the sources of supply in the West Virginia fields and elsewhere. The company controls by lease about 201,532 acres of gas lands, and during the past year it has acquired in West Virginia and Pennsylvania the gas rights on about 73,917 acres of well known producing fields. It has been reported to the company by competent experts that the company has gas in sight for the next twenty-five or thirty years. The principal fuel gas companies are: Philadelphia Co., Chartiers Valley Gas Co., Equitable Gas Co., Pennsylvania Natural Gas Co., Union Gas Co. of McKeesport, Allegheny Heating Co.

Property Changes during the year ending March 31, 1902.—During the year, 15 wells were purchased, and 64 wells were drilled, of which 40 were productive of gas, 19 of oil, and 5 unproductive; 2 wells were sold and 20 abandoned, having ceased to be productive; making the total number of wells owned or controlled through stock ownership, and in use by the company at this date, 503. During the year 36.24 miles of pipe were reclaimed, and 97.33 miles were laid. The total amount of pipe lines operated by the company is now 1,129.82 miles, and it controls, through stock ownership in other corporations, 126.92 miles of additional pipe lines. The company now holds under lease 201,532.62 acres of gas and oil territory situate in Western Pennsylvania and West Virginia. It controls through its ownership of the Union Gas Co. of McKeesport 413 acres, and through its majority ownership of the Equitable Gas Co. 2,259 acres of leaseholds. The company has acquired during the year 73,917 acres of productive gas territory. By surrenders of unproductive and exhausted leases, it has reduced its previous holdings so that the total increase in acreage during the year is 57,881.50 acres. The company sold during the year 23,884,942,000 cubic feet of gas, being an increase of 4,009,704,000 cubic feet, with additional receipts from that source of \$601,671.26. During the year 28 miles of two-wire telephone lines were built. The total amount of telephone lines operated by the company is now 460.2 miles of two-wire system and 17 miles of single-wire line. There has been an increase during the year of 6,057 domestic consumers of the natural gas supplied by the company and the companies it operates. The Philadelphia Co. and the companies it operates supply 35,035 natural gas consumers, and the Allegheny Heating Co. supplies 11,259 consumers.

Upon the terms and agreements authorized by the stockholders at their meeting of Dec. 4, 1901, the company has acquired 232,695 shares of the preferred stock and 284,249 shares of the common stock of the Consolidated Traction Co. of the City of Pittsburgh, 50,000 shares of the preferred stock and 50,000 shares of the common stock of the Southern Traction Co., 6,000 shares of the Southern Heat, Light and Power Co., and the shares of several smaller street railway companies. The Monongahela Street Ry. Co. and the Suburban Rapid Transit Street Ry. Co. have been leased to the Consolidated Traction Co., the Pittsburgh and Birmingham Traction Co. to the United Traction Co., and the Monongahela Light and Power Co. and the Southern Heat, Light and Power Co. to the Allegheny County Light Co. These various traction and street railway companies have, by operating agreements, been placed under the management of the Southern Traction Co., whose corporate name has been changed to the Pittsburgh Railways Co. (See General Index for statements of these companies.)

The articles of incorporation further provide that "the Board of Directors shall have power, without the assent or a vote of the stockholders, to make, alter, amend, and rescind the by-laws of the corporation; to fix the amount to be reserved as working capital; to authorize and to cause to be executed mortgages and liens upon the real and personal property of the corporations, and from time to time sell, assign, and transfer or otherwise dispose of any and all the property of the corporations, but no such sale of all of the property shall be made except pursuant to the vote of at least two-thirds of the Board of Directors."

This company was formed for the purpose of combining in one company the interests of the Schoen Pressed Steel Co. and the Fox Pressed Steel Equipment Co., controlling practically all the pressed steel car business in the country. The Fox Pressed Steel Equipment Co. was a company created by the merger of the Fox Solid Pressed Steel Co. and the Fox Pressed Steel Co. The Fox Solid Pressed Steel Co. began operations on Oct. 17, 1888, and continued in active business until April 17, 1897, when it consolidated with the Fox Pressed Steel Co. The Fox Pressed Steel Co. was organized Feb. 8, 1896, and with the Fox Solid Pressed Steel Co., merged itself into the Fox Pressed Steel Equipment Co. The Schoen Pressed Steel Co. was incorporated Nov. 25, 1895, and was in active operation until the formation of the Pressed Steel Car Co.

Description of Property.—There are four plants, all of which are now in active operation—viz.: (1)

McKees Rocks plant, at McKees Rocks, Pa., completed in July, 1899, at a cost of over \$1,500,000. This plant doubled the company's capacity. The plant consists of 96 acres, of which 13 acres are covered with new steel buildings of the most improved and modern design. The plant is filled throughout with the latest type of machinery, especially designed, most of which is covered by basic patents. In 1900, a plant for the manufacture of wooden cars with steel underframing was added to these works. The capacity of the plant is 70 cars per day. (2) Allegheny plant, at Allegheny, Pa., consisting of 35 acres, of which 10 acres are covered with steel and brick buildings of improved type, and with machinery and equipment especially designed, most of which is covered by basic patents; capacity, 60 cars per day. (3) McCandless Ave. plant, at Pittsburgh, Pa.; has 4 acres of ground, covered with steel and brick buildings of improved type. The plant is completely equipped with machinery, protected to a large extent by patents, which it is believed are basic. (4) Joliet plant, at Joliet, Ill.; it has 19½ acres of ground, of which two and one-half acres are covered with improved, well constructed buildings of stone and steel. The plant is completely equipped with machinery, largely covered by patents which are believed to be fundamental.

The year 1902 opened with over \$20,000,000 in orders on the company's books. The present annual capacity is 40,000 cars, 250,000 bolsters, 120,000 truck frames, 20,000 centre plates, and 20,000 brake beams. In 1899 a contract was made with the Carnegie Steel Co., by which the latter is to deliver to the Pressed Steel Car Co. 30,000 tons of steel plate per month for ten years.

Statement of net earnings, fixed charges, and surplus, six months ending June 30, 1902.—Net earnings (after all expenses of operation, cost of ordinary repairs, and all renewals of plant and machinery have been charged off), \$1,959,211.94. Deductions: Interest (3 mos.) to date on mtg. and bonded indebtedness, \$120,111.69; reserve, to cover preferred stock dividend on \$12,500,000, 7 p. c. per annum for three months to date, \$487,500; reserve for depreciation of works and properties, \$130,281.54—total, \$687,893.23. Pullman Co. (The).—The Pullman's Palace Car Co. was organized under the laws of Illinois, Feb. 22, 1887, for the purpose of operating sleeping and parlor and other cars and of manufacturing all kinds of railway cars. At a special meeting of the stockholders, held Dec. 5, 1899, the purchase of all the property (including cars, equipments, and contracts with various railway companies) of the Wagner Palace Car Co. was authorized; that in payment therefor the capital stock of the Pullman's Palace Car Co. be increased by \$20,000,000 to \$74,000,000, and that the name of the company be changed to "The Pullman Company." The change in the name of the Pullman's Palace Car Co. and the authority to issue the above named additional capital stock effect Dec. 30, 1899.

During the past fiscal year new contracts have been made with the Atlantic, Valdosta and Western Ry. Co., Little Rock and Hot Springs Western Ry. Co., Mexican Ry. Co. (Limited), Portland and Rumford Falls Ry. Co., and Fort Worth and Rio Grande Ry. Co. of Canada, Grand Trunk Western Ry. Co., Central Vermont Ry. Co., Detroit, Grand Haven and Milwaukee Ry. Co., Delaware and Hudson Co., and Mexican National RR. Co. The number of passengers carried during the year was 9,618,438, and the number of miles run was 335,742,267. This year shows an increase over the previous fiscal year of 24 p. c. in the number of passengers carried, and 22 p. c. in the number of miles run, largely due to twelve months' operation of Wagner territory, while the previous year included only seven months' operation of the same territory. The total mileage of railways, covered by contracts for the operation of this company's cars, is 165,283. The value of the manufactured product of the car works of the company for the year was \$16,424,789.86, and of rentals \$306,886.94, a total of \$16,731,676.80, against \$17,026,270.68 for the previous year.

For the year 1900 details of operating expenses are not available. † The difference between this amount and that shown as "Surplus" in the preceding column is occasioned by the stock dividend of \$18,000,000 referred to in the succeeding paragraph.

Dividends.—For 25 years or more the Pullman Palace Car Co. paid regular quarterly dividends of \$2 per share with an occasional extra dividend in the earlier years of \$1.50 per share, excepting the quarters ending Feb. 15, May 15, and Aug. 15, 1899. Steel & Spring Co. is equipped, in addition, with a steel mill, with a capacity of 40,000 tons of bar steel, as above stated.

On June 7, 1902, The Steel-Tired Wheel Co., a corporation organized under the laws of New Jersey, with an authorized capitalization of \$4,000,000 (\$2,000,000 preferred and \$2,000,000 common stock, of which \$1,444,300 preferred and \$1,902,500 common stock were issued) was merged into this company. This merger agreement provided for the consolidation of The Steel-Tired Wheel Co. with the Railway Steel-Spring Co., and provided also that the capital stock of the Railway Steel-Spring Co., which heretofore has been \$20,000,000, divided into 100,000 shares each of preferred and common stock of the par value of \$100 per share, be increased to \$27,000,000, divided into 135,000 shares each of preferred and common stock of the par value of \$100 per share each, such additional preferred and common stock to have the same rights, preferences and limitations as the original preferred and common stock of the Railway Steel-Spring Co. The additional stock of the consolidated corporation was exchangeable for stock of The Steel-Tired Wheel Co. at the following rate: For each 100 shares of the preferred stock of The Steel-Tired Wheel Co. the holder thereof was entitled to receive 110 shares of the preferred stock of the consolidated corporation; for each 100 shares of the common stock of The Steel-Tired Wheel Co., the holders thereof were entitled to receive 100 shares of the preferred stock and 180 shares of the common stock of the consolidated corporation. For all fractions of a share of stock required by the above exchange scrip will be issued, entitling the holder to stock, when presented in amounts equalling the par value of one share of stock or any multiple thereof.

The plants of The Steel-Tired Wheel Co. which were acquired by the Railway Steel-Spring Co., and for which the additional \$3,500,000 preferred and \$3,500,000 common stock were issuable are as follows: Depew Works, Depew, N. Y.; Pullman Works, Pullman, Ill.; Hudson Works, Hudson, N. Y.; Scranton Works, Scranton, Pa.; Chicago Works, Chicago, Ill.; Denver Works, Denver, Col., and the manufacturing rights for fused steel-tired wheels of the Lehigh Car, Wheel and Axle Works, Catasauqua, Pa.; also real estate and buildings at Cleveland, O., operated by other parties under lease.

* The \$206,000 Alice Furnace Co. bonds are held alive in the Pratt Coal and Iron Co. sinking fund.

From the amount of bonds outstanding, \$13,871,500, deduct the actual amount of sinking fund, \$586,464.06, to find the net remaining liability as per general balance sheet, \$13,285,035.94. Interest on bonds is payable at the Hanover National Bank, New York.

The consol. gs of 1901 are also exchangeable at par for N., C. & St. L. Ry. 6 p. c. bonds held by the Central Trust Co. Of the Alice Furnace bonds, \$214,000 are in the Pratt sinking fund.

In addition to the Birmingham Div. bonds outstanding, a sufficient amount is reserved to retire the Pratt and Alice issues at maturity. The Alice issue was redeemed March 1, 1899, and Birmingham Div. bonds were issued in place thereof. The prior bonds on the Tennessee portion of the property are mostly refunded into the Tennessee Div. bonds, due 1917. The Birmingham Div. bonds are secured on all the property of the Birmingham (Ala.) Division (formerly the Pratt Coal and Iron Co.), and are also secured on all the property of the company in the State of Tennessee, but subordinate to the Tennessee Div. mtge. bonds dated Jan. 1, 1887. The Tennessee Div. bonds are similarly secured by a 2d mortgage on the Alabama property.

A sinking fund of 1 p. c. has been provided on the Birmingham Div. and 1½ p. c. on Tennessee Div. bonds. The authorized amount of De Bardeleben bonds assumed by the T. C., I. & RR. Co., under the terms of purchase, is \$3,000,000, of which \$400,000 were held in trust for the Eureka Co. bonds. These \$400,000 bonds were issued during the past year and the Eureka bonds retired. By the payment of the Eureka Co.'s bonds the De Bardeleben issue has become a 1st mortgage upon the Oxmoor furnaces and Ishkooda ore mines, and by the retirement of all the Alice Furnace Co. bonds except those owned by the Pratt Coal and Iron Company sinking fund, Pratt 7s have become the first lien upon the Alice furnace and the ore lands acquired with that property. Sinking fund retires \$30,000 of the De Bardeleben bonds annually.

Under date of July 1, 1901, the company executed a mortgage covering its entire property to the Union Trust Co. of New York, as trustee, to secure an issue of \$15,000,000 gen. mtge. gold bonds, due July 1, 1901, and bearing interest at not exceeding the rate of 5 p. c. per annum, payable Jan. 1 and July 1, at the company's New York office. The bonds are for \$1,000 each, in coupon form, with privilege of registration as to principal alone or of conversion into fully registered bonds. Principal and interest are payable in gold, free of all taxes. There is a sinking fund under which the surplus earnings of the company up to 1 p. c. of the amount of the bonds issued shall be applied to the retirement of bonds whenever they can be purchased at not exceeding 105 p. c. and accrued interest, the fund to be invested if bonds are not offered at that figure. Of these bonds \$10,653,500 were to be used for retiring bonds then outstanding as they fell due, \$3,000,000 were to be sold and the floating liabilities reduced, and \$1,346,500 are to be sold and the proceeds expended for additions and betterments. Up to April 17, 1902, it has been necessary to sell only \$3,000,000 of these bonds, the money received for them reducing floating obligations, the balance required (except \$100,000 still due) having been taken from earnings.

Funded debt outstanding consists of 1st mtge. 6 p. c. 30-yr. \$1,000 gold coupon sinking fund bonds, due July 1, 1931, interest Jan. and July; trustee, Continental Trust Co., New York, N. Y. These bonds are a first lien upon the plants formerly owned by the Standard Milling and Smelting Co., the Colorado Philadelphia Reduction Co., the Union Gold Extraction Co., the Metallic Extraction Co., the National Gold Extraction Co., and the Ore Sampling Plant of the National Gold Extraction Co. The real estate upon which these plants are located consists of 261.48 acres in the aggregate, owned in fee simple by the company, together with necessary railway tracks and facilities, water rights, rights of way, and all other easements of every kind and nature whatsoever appurtenant to said plants; also all patents, rights, contracts and franchises owned by the company. The provisions of the mortgage are such that it is a first lien upon all of the property of every kind and nature whatsoever of the company, now owned or hereafter at any time to be acquired by it, whether specifically enumerated in the mortgage or not.

The mortgage securing these bonds provides for a sinking fund of \$50,000 per annum, to be paid to the trustee in two semi-annual installments of \$25,000 each, beginning March 1, 1902. With these funds the trustee is to purchase the bonds of the company at not to exceed 110, and has the power in case it cannot purchase the bonds at 110 or less, to draw and call the same for the purposes of the sinking fund. The sinking fund is cumulative, and when bonds are purchased under its provisions they are not cancelled, but marked by the trustee "Purchased for the Sinking Fund and not transferable," and the company continues to pay to the trustee the interest on such bonds so acquired by the sinking fund, for further purchase of bonds. The company has reserved to itself the right to redeem and pay off any or all of the bonds on any interest date, after July 1, 1902, at 110 p. c. of their face value. This provision for redemption is in addition to and irrespective of the sinking fund provisions.

United States Steel Corporation.—The United States Steel Corporation was incorporated under the laws of the State of New Jersey, the original certificate of incorporation having been filed at Trenton, February 23, 1901, and the amended certificate, April 1, 1901. By the amended certificate, the authorized capital stock of the Corporation was fixed at 11,000,000 shares of the par value of \$100 each, equally divided into 5,500,000 shares of 7 p. c. cumulative preferred stock (preferred as to both dividends and capital), and 5,500,000 shares of common stock.

It is provided by the certificate of incorporation as follows:

Article III.—The objects for which the corporation is formed are:

To manufacture iron, steel, manganese, coke, copper, lumber, and other materials, and all or any articles consisting, or partly consisting, of iron, steel, copper, wood, or other materials, and all or any products thereof.

To acquire, own, lease, occupy, use, or develop any lands containing coal or iron, manganese, stone, or other ores, or oil, and any wood lands or other lands for any purpose of the company.

To mine, or otherwise to extract or remove coal, ores, stone, and other minerals and timber from any lands owned, acquired, leased, or occupied by the company, or from any other lands.

To buy and sell, or otherwise to deal or to traffic in, iron, steel, manganese, copper, stone, ores, coal, coke, wood, lumber, and other materials, and any of the products thereof, and any articles consisting, or partly consisting, thereof.

To construct bridges, buildings, machinery, ships, boats, engines, cars, and other equipment, railroads, docks, slips, elevators, water works, gas works, and electric works, viaducts, aqueducts, canals, and other waterways, and any other means of transportation, and to sell the same, or otherwise to dispose thereof, or to maintain and operate the same, except that the company shall not maintain or operate any railroad or canal in the State of New Jersey.

To apply for, obtain, register, purchase, lease, or otherwise to acquire, and to hold, use, own, operate, and introduce, and to sell, assign, or otherwise to dispose of, any trade marks, trade names, patents, inventions, improvements, and processes used in connection with, or secured under letters patent of the United States, or elsewhere, or otherwise; and to use, exercise, develop, grant licenses in respect of, or otherwise to turn to account any such trade-marks, patents, licenses, processes, and the like, or any such property or rights.

To engage in any other manufacturing, mining, construction, or transportation business of any kind or character whatsoever, and to that end to acquire, hold, own, and dispose of any and all property,

assets, stocks, bonds, and rights of any and every kind; but not to engage in any business hereunder which shall require the exercise of the right of eminent domain within the State of New Jersey.

To acquire by purchase, subscription, or otherwise, and to hold or to dispose of, stocks, bonds, or any other obligations of any corporation formed for or then or theretofore engaged in or pursuing, any one or more of the kinds of business, purposes, objects, or operations above indicated, or owning or holding any property of any kind herein mentioned; or of any corporation owning or holding the stocks or the obligations of any such corporation.

To hold for investment, or otherwise to use, sell, or dispose of, any stock, bonds, or other obligations of any such other corporation; to aid in any manner any corporation whose stock, bonds, or other obligations are held or are in any manner guaranteed by the company, and to do any other acts or things for the preservation, protection, improvement, or enhancement of the value of any such stock, bonds, or other obligations, or to do any acts or things designed for any such purpose; and, while owner of any such stock, bonds, or other obligations, to exercise all the rights, powers, and privileges of ownership thereof, and to exercise any and all voting power thereon.

Article IV.—The total authorized capital stock of the corporation is eleven hundred million dollars (\$1,100,000,000), divided into eleven million shares of the par value of one hundred dollars each. Of such total authorized capital stock, five million five hundred thousand shares, amounting to five hundred and fifty million dollars, shall be preferred stock, and five million five hundred thousand shares, amounting to five hundred and fifty million dollars, shall be common stock.

From time to time, the preferred stock and the common stock may be increased according to law, and may be issued in such amounts and proportions as shall be determined by the board of directors, and as may be permitted by law.

The holders of the preferred stock shall be entitled to receive when and as declared, from the surplus or net profits of the corporation, yearly dividends at the rate of seven per centum per annum, and no more, payable quarterly on dates to be fixed by the by-laws. The dividends on the preferred stock shall be cumulative, and shall be payable before any dividend on the common stock shall be paid or set apart: so that, if any year dividends amounting to seven per cent. shall not have been paid thereon, the deficiency shall be payable before any dividends shall be paid upon or set apart for the common stock.

In the event of any liquidation or dissolution or winding up (whether voluntary or involuntary) of the corporation, the holders of the preferred stock shall be entitled to be paid in full both the par amount of their shares and the unpaid dividends accrued thereon, before any amount shall be paid to the holders of the common stock; and after the payment to the holders of the preferred stock of its par value, and the unpaid accrued dividends thereon, the remaining assets and funds shall be divided and paid to the holders of the common stock according to their respective shares.

Pursuant to the powers conferred by its charter, the corporation has acquired practically all of the issues of capital stock of the companies named in the following table, the old holders of such stocks receiving in exchange for each \$100 par value thereof, the amount set opposite thereto in preferred or common stock of the United States Steel Corporation at par. The corporation has also acquired (July 1, 1902) \$159,757,000 of The Carnegie Company Collateral Trust Bonds, for which an equal amount of U. S. Steel Collateral Bonds was issued.

"(2) 722,025 shares of common stock, and 741,915 shares of preferred stock of the Corporation were issued for the acquisition of \$29,413,905 par value of stock of the Lake Superior Consolidated Iron Mines and \$30,946,400 of common stock and \$31,348,000 of preferred stock par values of the American Bridge Company;

"(3) 92,500 shares each of common and preferred stock of the Corporation were issued for the acquisition of an outstanding one-sixth interest in the Oliver Iron Mining Company and in the Pittsburgh Steamship Company, thus securing the ownership of all of the stock of those two companies not owned by the Carnegie Company except directors' qualifying shares; and

"(4) 20,045 shares of common stock and 17,910 shares of preferred stock of the Corporation were issued for the acquisition of \$8,018,200 of common stock and \$4,776,100 shares of preferred stock, par values, of the Shelby Steel Tube Company under the contract above mentioned.

"The Aragon Iron Mines leasehold and the stock of the Bessemer Steamship Company have been purchased for cash paid and payable by this Corporation or by some of the subsidiary companies above mentioned.

"All of the bonds of the Carnegie Company and all of the stocks of the companies acquired as above mentioned by the United States Steel Corporation, have been lodged with the United States Trust Company, as Trustee, for the benefit of the Corporation and its stockholders, and to secure the payment of the \$304,000,000 bonds of the Corporation authorized by the deed of trust of April 1, 1901. This deposit affords security to stockholders as well as bondholders against diversion or depletion of these important assets of the corporation.

"Circulars, dated March 2, and April 2, and 8, 1901, addressed to the holders of shares of the several companies therein specified were issued and published by the Syndicate Managers. At the rates offered in the circular dated March 2, 1901, the Syndicate acquired the common stocks and preferred stocks of the seven companies (other than the Carnegie Company) as above mentioned (see p. 1181, and thereupon sold and transferred the same to this Corporation under the contract of March 1, 1901. The Syndicate delivered to the holders of such stocks of said seven companies in the aggregate 2,694,909 shares of common stock and 2,616,957 shares of preferred stock of this Corporation. The Syndicate acquired sixty per cent. (\$96,000,000) of the stock of the Carnegie Company, and \$159,450,000 face value of the five per cent. bonds of the Carnegie Company by delivering to the holders thereof said \$303,450,000 of bonds of this Corporation and \$1,200,000 in cash; and the Syndicate acquired the remaining forty per cent. (\$64,000,000) of the stock of the Carnegie Company by delivering to the holders thereof 982,771 shares of preferred stock and 902,790 shares of the common stock of this Corporation.

"The residue of the common and preferred stock of this Corporation delivered to the Syndicate under the contract of March 1, 1901, and not used for the acquisition by it of the stocks of the specified companies, being the shares which, as stated in the Syndicate circular of March 2, 1901, were to be retained by and to belong to the Syndicate, amounted to 649,987 shares of preferred stock, and 649,988 shares of common stock. This residue of stock or the proceeds thereof, after reimbursing the Syndicate the \$25,000,000 in cash which it paid to the Corporation, and approximately \$3,000,000 for other syndicate obligations and expenses, constituted surplus or profit of the Syndicate.

"The transactions between this Corporation and the Syndicate having been concluded, an agreement of final settlement and mutual release, dated January 3, 1902, was executed between this Corporation and the Syndicate Managers.

"It will be noted that this Corporation has received and now owns in the aggregate more than ninety-nine and three-fourths per cent. of the shares of all the specified companies. The acquisition of so large a proportion of the shares has enabled the Corporation promptly to enter upon the accomplishment of the principal objects which induced its formation, and has facilitated the fulfillment of the original expectations of large reductions in expenditures for improvements, of increased earnings applicable to dividends, and of greater stability of investment, without increasing the prices of manufactured products.

"LEASE OF POCAHONTAS COAL LANDS.

"Subsidiary companies of the Corporation have secured a lease of fifty thousand acres of the best Pocahontas coking and fuel coal property, on a royalty basis, and on favorable terms for production and transportation. Plans for the prompt development of this property on a large scale are under consideration, and it is expected that in the near future there will be received from this field a large supply of

coke and fuel coal. With this acquisition, it is estimated that there is now controlled by subsidiary companies a sufficient quantity of the best and cheapest coking coal to provide, on the basis of present consumption, for the necessities of all the furnaces of these companies during the next sixty years. The Corporation has guaranteed the performance of this lease on the part of the lessees."

After April 1, 1911, series A, C, and E of the bonds, amounting to \$154,000,000, are subject to call in whole or in part at 115 p. c. and accrued interest. Series B, D, and F cannot be paid before maturity. All bonds purchased for the sinking fund remain alive and continue to draw interest, the accretions being invested in same manner as provided for the installments.

The bonds are secured by deposit in trust of all securities owned by the corporation which may be held by it for permanent investment.

The Trust Indenture provides that the company shall be entitled to vote upon the deposited stocks so long as it is not in default in payment of interest on the outstanding bonds, but it provides as follows:

"Nevertheless, such voting power shall not in any case or at any time be conferred or be used or exercised for the purpose of authorizing the creation of any lien, secured indebtedness, or charge upon the properties or franchises of any corporation or association, while a majority of the shares of the capital stock thereof shall be held by the Trustee hereunder, except in substitution and exchange for a like amount of secured indebtedness or charges of such corporation or association, or to secure advances or loans from the Steel Company to enable such corporation or association to make betterments, improvements, or extensions. Any such lien, secured indebtedness, or charge for advances or for loans from the Steel Company forthwith shall be transferred by the Steel Company to the Trustee hereunder, and the evidences thereof shall be delivered to the Trustee hereunder by it to be held in all respects as though the same had been transferred and delivered to the Trustee at the time of the execution of this indenture; but all sums which shall be paid in satisfaction or discharge of any such lien, secured indebtedness, charge or obligation shall belong to and be received by the Steel Company and shall not be held by the Trustee."

"Whenever requested by resolution adopted by the affirmative vote of at least two-thirds of all the Directors of the Steel Company, the Trustee shall vote, or shall execute its proxy or power of attorney to vote, upon the shares of stock of other companies held by it under this Indenture, in favor of the increase from time to time of the Capital Stock of any of such companies. . . . In case of the increase of the Capital Stock of any such company, the Steel Company forthwith shall assign, transfer, and deliver to the Trustee, by it to be held upon the trusts of this Indenture, in the same manner as though assigned, transferred, and delivered to the Trustee at the date of the execution thereof, the additional Capital Stock of such Company or such part thereof as shall be proportionate to the part of the entire capital stock of such company previously held by the Trustee hereunder."

The Trust Indenture further provides that after the bonds are paid the deposited stocks shall still be held by the Trustee as follows:

"But the Trustee in such case shall continue to hold as depositary for the Steel Company the certificates for all shares of stock, and all bonds or other securities (except stocks, bonds, and other securities held in the Sinking Fund) until the holders of two-thirds of the Preferred Stock and of two-thirds of the Common Stock of the Steel Company then outstanding, by their vote given at a meeting of the Stockholders of the Steel Company, shall have authorized some disposition thereof; whereupon the Trustee shall dispose of such shares of stock, bonds, or other securities, as authorized by such vote."

INVENTORIES.

(a). The inventories represent raw material, goods manufactured and in process of manufacture, and manufactured goods in transit, on consignment or at selling departments. A large part of the inventories on November 30th is made up of the necessary accumulation during the summer and fall of extensive ton-nages of iron ore for conversion during the winter and spring, when, owing to the close of navigation mining and shipping are diminished.

The amount of finished product on hand is largely due to inability to obtain freight cars for deliveries to customers.

The inventories are taken on the basis of the actual cost of the materials including labor at the several departments of the companies holding the same, and this cost is below the average current market price of such commodities.

The following is a general classification of the inventories on November 30th:

Ores, \$34,776,053; pig iron, scrap, spiegel, and ferro, \$4,752,750; coal, coke, and other fuel, \$1,160,361; pig tin, lead, copper spelter, nickel, etc., \$2,087,531; manufacturing supplies and miscellaneous stores otherwise unclassified, \$12,170,161; ingots, blooms, billets, sheet and tin bars, skelp, rods, muck bar, etc., \$9,343,894; finished products, \$15,322,636; mining supplies and stores, \$1,170,859; railroad supplies and stores, \$851,645; materials, labor, and expense locked up in current uncompleted bridge contracts, \$9,268,361; materials in transit and on consignment, \$4,699,746—total, \$95,603,997.

(b). *Sinking Fund and Reserves for Depreciation*: The item of \$21,236,040.54 for Sinking Funds and Reserves for Depreciation in the balance sheet is made up as follows: Sinking fund on U. S. Steel Corp. bonds, \$1,520,000.00; sinking funds on bonds of Sub. Cos., \$1,264,197.50; reserved for general depreciation, including that of the ore, coal and coke properties, and for extraordinary outlays which may be required for unusual expenses, for improvements and for renewals, \$18,451,843.04—total, \$21,236,040.54.

At a meeting of the directors, March 4, 1902, it was resolved to accept the provisions of a bill previously passed by the Legislature of New Jersey and approved, which provides that with the consent of two-thirds in interest of each class of stockholders present at a legally called meeting every corporation * * * that shall have issued preferred stock entitling the holder to receive dividends at a rate exceeding 5 p. c. per annum may under certain conditions retire preferred stock out of bonds or the proceeds thereof. It was furthermore resolved to retire \$200,000,000 of the outstanding preferred stock by an issue of \$250,000,000 5 p. c. 60-yr. bonds of which \$200,000,000 would be set apart for exchange at par for a corresponding amount of preferred stock, holders to be offered the privilege of exchanging 40 per cent of their shares, and \$50,000,000 to be sold for cash. The bonds are to be redeemable at 110 at the pleasure of the company upon any interest day after the expiration of ten years from date thereof out of the proceeds of a sinking fund of \$1,000,000 per annum; secured by a mortgage, lien and pledge upon all of the property and upon the shares of the capital stock of other corporations now held or hereafter to be acquired by the U. S. Steel Corporation such lien to be similar and next to the lien of the 5 p. c. 50-yr. gold bonds of 1901. At a special meeting of the stockholders held May 19, 1902, this action was ratified.

Virginia-Carolina Chemical Co.—Organized Sept. 12, 1895, under the laws of New Jersey. The business of the company is manufacturing and selling acids, chemical fertilizers, cotton seed oil, and meal, and all kindred products, and mining and selling phosphate rock, pyrites, sulphur, and other articles, importing chemicals, and the distribution of the aforesaid products and articles. The corporation has power to carry on its business in all States and Territories of the United States, and in all foreign countries.

During the past year the company's authorized capital stock, amounting to \$24,000,000, consisting of \$12,000,000 of preferred stock and \$12,000,000 of common stock, divided into shares of \$100 each, was increased to \$50,000,000 by the addition of \$26,000,000 of common stock. Such additional stock may be issued by the board of directors, from time to time, as it may determine, and entitles the holders thereof to the same dividends and rights, from the date of issue, as the holders of similar stock authorized by the certificate of incorporation.

The issuance of this additional stock was for the purpose of purchasing and taking up a series of guaranteed 8 p. c. stock trust certificates, heretofore issued by this company against 159,844 shares of the par value of \$50 each, (\$7,992,200) of the capital stock of The Southern Cotton Oil Company, and upon such acquisition, of cancelling such stock trust certificates, extinguishing the obligations of this company thereunder, and vesting in this company said stock of The Southern Cotton Oil Company. The company has sold all said stock at par, for property.

The Stock Trust Certificates will be cancelled, and the stock of The Southern Cotton Oil Co. represented thereby will be placed in the treasury of the Virginia-Carolina Chemical Co.

The Southern Cotton Oil Company was organized under the laws of the State of New Jersey in 1887. The objects for which it was formed are "to manufacture cotton seed oil and all the products of cotton, and all articles into which cotton seed products enter, and refining, grinding, manipulating, and selling and dealing in the same, in connection with said manufacture, etc. Its capital is \$11,000,000, of which \$10,000,000 has been issued, divided into 200,000 shares of the par value of \$50 each, and all of which has been paid in cash. The Southern Cotton Oil Company owns, in fee, mills and refineries at the following places: Montgomery, Ala.; Atlanta, Ga.; Savannah, Ga.; Gretna (New Orleans), La.; Houston, Tex.; Little Rock, Ark., and Memphis, Tenn., and mills at Columbia, S. C., Barnwell, S. C., and Newport, Ark., besides seed houses and warehouses, tank and box cars, etc. It also owns the stock of the Wesson Process Co., owning the process of David Wesson for deodorizing and clarifying cotton-seed oil. It is also now the owner of, and operates, a large number of cotton-seed oil mills and plants, which it either owns in fee or through capital stock representing the ownership therein.

The preferred stock has also priority over the common in the event of liquidation or dissolution of the company. There is no bonded debt whatever of the Virginia-Carolina Chemical Co. There are, however, outstanding mortgage bonds, amounting to \$151,000, on one piece of mining property bought by this company, which were on the said property when it was purchased, and which are not yet due and cannot therefore be paid off until 1905. With this exception there is no mortgage indebtedness of any kind on any of the properties bought by the company.

Organized Jan. 18, 1881, under the general laws of New York, N. Y. The company's assets consist of two trans-Atlantic submarine telegraph cables between Sennen Cove, England, and Dover Bay, Nova Scotia. In England special wires, by contract with the English Postal Department, connect the cables with London and Liverpool. In America connection is made with all places in the United States and Canada under contract with the Western Union Telegraph Co. and the Great Northwestern Telegraph Co. An agreement dated May 12, 1882, was made with the Anglo-American Telegraph Co., the Direct United States Cable Co., and La Compagnie Française du Télégraphe de Paris at New York, by which, for 38 years, the A. T. & C. Co. receives the following proportion of the combined revenues of the four

companies: While one cable is working, $12\frac{1}{2}$ p. c.; while both cables are working, $22\frac{1}{2}$ p. c.

By agreement dated May 12, 1882, all the property, rights and privileges of this company, as represented by its two trans-Atlantic cables and their equipment, are leased to the Western Union Telegraph Co. for 50 years, at a rental of 5 p. c. per annum on \$14,000,000 stock, lessee to maintain, operate and renew them.

Financial Statement.—Capital stock (\$100 shares), \$14,000,000, was issued to the American Cable Construction Co. for the two trans-Atlantic cables between England and Nova Scotia. R. C. Clowry, Pres.; Thomas F. Clark, Sec.; Myron T. Wilbur, Treas., New York, N. Y. General Office, New York, N. Y.

UNITED STATES OF AMERICA.

Sketch of the National Debt.—The treasury department was established in 1789, and about a year later the Government assumed debts of the confederation and of the individual States, amounting to \$72,775,895. The first important loan was one of \$13,000,000, made in 1803, to provide for the purchase of Louisiana; and one of \$16,000,000 was made in 1813, to meet the cost of the war of 1812. During President Jackson's administration, between 1829 and 1835, the entire public debt was paid off, and in 1836 the Government found itself in possession of a surplus of over \$40,000,000. The depression of 1837-1842 and the Mexican war increased the debt till it amounted to about \$79,000,000 in 1851. Shortly thereafter, however, treasury funds began to increase rapidly, and the Government began to buy in its securities at a premium. By the acceptance of various offers by the Government to purchase bonds at different and heavy rates of premium, the debt was reduced to \$25,165,154 on Oct. 1, 1857. After the panic of 1857, the debt began to increase again, and by Jan. 1, 1861, it had crossed the \$72,000,000 mark. The Civil War added enormous sums to it, until on Sept. 1, 1865, it had reached its highest figures, \$2,757,689,571. The following table gives a complete list of the bonds and other securities issued on account of the Civil War:

Issue of 1879 was made to redeem all bonds outstanding; issue of 1883 to redeem Atlantic and Gulf RR. bonds endorsed by the city. The present laws prohibit any increase in the city's debt. State Improvement	1899-1900	1909-1920	5	Jan. & July	Office of State Treasurer.	43,000	2,150	1,000

Total bonded indebtedness, as above, \$443,500, of which the State holds through the general school fund, \$73,000. During the past year, \$11,000 of the wagon road bonds of 1889 fell due and were called for redemption, but not being presented within 60 days as required by law, the treasurer used the money for the calling of bonds due next in order, and on Dec. 2, 1900, called \$19,000 which fell due on Jan. 1, 1901. The result of this was that the \$11,000 previously called lost their standing and ceased to draw interest, and there are no funds in the wagon road sinking fund available for their payment at the present time.

Floating debt, Jan. 1, 1901, \$92,510. Total debt (less \$103,000 bonds held by State), \$433,310. Receipts for years 1899 and 1900, \$1,028,841. Expenditures, \$492,222. Warrants outstanding, Jan. 1, 1901, \$95,499.

Debt Limitation.—See Manual for 1896, page 1339.

STATE OF ILLINOIS.

History.—In 1809 Illinois Territory was organized, comprising the present States of Illinois and Wisconsin, and part of Minnesota. On Dec. 3, 1818, under Act of April 18, 1818, Illinois was admitted into the Union. Area, 56,000 sq. miles. Pop., 1890, 3,826,351; 1900, 4,821,550. For statement showing, by counties, the area, population, etc., also State population, assessed valuation, etc., for several years, see previous issues of the Manual.

Bonded debt, April 1, 1902.—There are only \$18,500 bonds outstanding, but these have ceased to bear interest, having been called for payment but not presented. Bonds were issued as early as 1837, for internal improvements, etc., but they became such a drag on the credit of the State (default having been made in 1841 on the \$15,000,000 or so of them issued) that in 1848 a new constitution was framed which prohibited the creation of any future debt in excess of \$50,000, except in case of invasion or rebellion, and prohibited the loaning of the credit of the State to any individual, association or corporation; also providing for the extinguishment of the debt by a special tax levy. By the constitution of 1870 the aggregate debt which may be raised ("to meet the casual deficits and failures of revenue") is increased to \$250,000.

Illinois Central Railroad Fund—Report of Gross Earnings and Payments to the State.—The charter of the Illinois Central R.R. Co. exempts it from taxation, but requires a payment to the State of 7 p. c. of the gross receipts of the original railroad, 705.50 m. (see General Index for statement of the Illinois Central R.R. Co.). In the Manual for 1894 was published a statement showing the gross earnings of the road and the amounts paid into the State Treasury for each half year from Oct., 1855, to April, 1892, inclusive; the aggregate sum received by the State being \$13,175,352. The gross receipts of the road from Oct. 30, 1892, to April 30, 1900, inclusive, were \$74,550,428.27; the State's percentage (7) was \$5,218,529.97. Total paid the State to April 30, 1900, \$18,392,243. Statement of receipts and disbursements during two years ending Sept. 30, 1900: Cash on hand, Oct. 1, 1898, \$2,163,378; amount received, \$14,482,548—total, \$16,645,926. Disbursements: Warrants paid, \$14,027,970; balance in treasury, Oct. 1, 1900, \$2,617,956—total, \$16,645,926. Outstanding warrants on this date amounted to \$90,548.
